

GIFTS OF SECURITIES

STEP 1: Initiate an electronic transfer through your broker.

Electronic transfer is the simplest and most secure way of donating stock and other securities. Instruct your broker to electronically transfer the securities out of your account and into Faith Christian School's account. GFCS' brokerage account information can be found to the right.

STEP 2: Contact Faith Christian School.

After you have initiated the transfer, please advise the Advancement Office to ensure proper donor acknowledgement and gift designation, if applicable. When the security transfer is received into Faith Christian School's brokerage account, we will confirm receipt and provide gift documentation.

Your gift of securities is valued as of the day it reaches our account if your broker transfers them electronically. Your gift value on that date is the average of the high and the low prices for the stock or the closing price.

Please note that in order to reduce any risk to Faith Christian School, donated securities are typically sold soon after receipt. If you have any questions or need additional information to initiate the transfer, please contact us at 817.813.2484 x2170 or jessica.branch@grapevinefaith.com.
