Network Changes Affecting Student Logins

Student Edition

Changes Taking Effect: During the weekend of 6th / 7th December

Stowe Valley
Multi Academy Trust

As part of ongoing changes to the network, and to resolve the issues the school experienced at the start of term, we have a need to change the school to work with an individual school domain. To this end, we are moving the school from the @stowevalley.com domain to @stu.sco.svmat.uk. The main change will be to your login credentials.

Current email:

A.Example@StoweValley.com

New email:

A.Example@stu.sco.svmat.uk

We would like to reassure all students and parents that you are keeping the same account, so all of your emails will still remain in place, your documents will still remain and nothing, other than the domain, will be changing.

If you are signed in at home during the weekend of the 6th / 7th December, you may find yourself signed out of your school account. If this does happen, please just sign back in with your new login in credentials. This is your username followed by @stu.sco.svmat.uk instead of @stowevalley.com

Your password will not be changing, so when logging in at home, or at school, please still use the same password.
