Voters of Brunswick County

Dear Brunswick County Residents,

As the Executive Director of the North Brunswick Chamber of Commerce, I am proud to express our strong support for the Brunswick County Schools Bond Referendum appearing on the March 2026 ballot. This \$349 million investment represents a critical step forward for our rapidly growing community.

The bond will fund key projects, including a new elementary school and a new high school in the North Region, strategic land purchases, the Governors Road extension, and important upgrades to existing facilities. These improvements such as intercom replacements, indoor bleachers, multipurpose turf fields, softball fieldhouses, and future site developments will ensure that Brunswick County Schools can continue providing a high-quality educational experience for more than 13,000 students.

Approving this referendum is not only an investment in our children it is an investment in the economic strength and long-term success of Brunswick County. A strong school system attracts families, supports local businesses, and builds a brighter future for all of us.

I urge all eligible voters to make their voices heard and vote in support of this vital measure.

Sincerely,

Thom Kelly

Executive Director

North Brunswick Chamber of Commerce
