Special Education Local Plan Area—Local Plan Requirements

1. Describe the geographic service area covered by the local plan: [EC 56195.1(d); EC 56195.1(a)(1); EC 56211; EC 56212]

Pursuant to EC §56195, Long Beach Unified School District (LBUSD) meets size and scope standards established by the State Board of Education to operate as a single-district Special Education Local Plan Area (SELPA) in a metropolitan area. A single-district SELPA in a metropolitan area must have comprehensive special education programs for students in kindergarten through twelfth grades, and must have 30,000 or more students. In addition to being of sufficient size and scope to qualify as a single-district SELPA, the LBUSD SELPA fully cooperates with the County Office of Education in order to assure that the SELPA is compatible with other SELPAs in the county, as required by EC Section 56195.3.

The geographic area served by the SELPA's Local Plan encompasses 380 square miles including the Long Beach mainland and Catalina Island. LBUSD SELPA serves students residing in Long Beach, Lakewood, Signal Hill, and Avalon (Catalina Island). LBUSD also operates a high school in Carson on the campus of Cal State University, Dominguez Hills. In December 2023, the total student population of Long Beach Unified School District was 63,966 with 9,706 students receiving Special Education services.

LBUSD is within the jurisdiction of Los Angeles County, and is the fourth largest school system in California and the 45th largest in the United States. LBUSD operates and maintains nearly 8 million square feet of buildings within its geographical boundaries that serve students in preschool through adult transition programs in 84 different schools. Geographic mainland boundaries of the LBUSD SELPA include shared borders with Compton, Paramount, and Bellflower to the north, Seal Beach, Los Alamitos, and Cerritos to the east, Carson and Wilmington to the west, and the Pacific Ocean to the south.

12. Describe how specialized equipment and services will be distributed within the SELPA in a manner that minimizes the necessity to serve students in isolated sites and maximizes the opportunities to serve students in the least restrictive environments: [EC 56206]

The Long Beach Unified SELPA provides a full continuum of Special Education programs and services, including alternative education programs and specialized equipment and services, to students with disabilities to ensure that those students are educated with their typical peers to the maximum extent appropriate. Special day classes may enroll a student only when the nature or severity of the disability is such that education in the regular classes with the use of supplementary aids and services, including curriculum modifications and behavioral support, cannot be achieved satisfactorily. These requirements also apply to separate schooling or other removal of students from the general education environment. Funding for and coordination of the use and distribution of low-incidence equipment, materials and services in a manner that minimizes serving students with disabilities in isolated sites and maximizes serving those

students in the least restrictive environment.

Low incidence funds provided by the State allow for the purchase of specialized books, materials, and equipment, which are necessary due to the adverse educational impact of a low incidence disability on access to instruction and learning in the least restrictive environment (LRE). Low incidence funding is intended to supplement and not supplant other available funding for books and materials. "Low incidence disability" means a severe disabling condition with an expected incidence rate of less than one (1) percent of the total Statewide enrollment in kindergarten through grade twelve (12). For purposes of this definition, severe disabling conditions are hearing impairments, vision impairments, and severe orthopedic impairments, or any combination thereof.

The SELPA is responsible for ensuring that each student who has been identified as a student with a "low incidence" disability, receives the required instructional support as indicated on the IEP. The Director of SELPA, Data Monitoring and Compliance is responsible for ensuring that all eligibility requirements are met prior to approving any expenditure of these funds.

SPECIAL EDUCATION TRANSPORTATION

Transportation is required to be provided as a related service if it is required to assist a child with a disability to benefit from special education. In addition, as required for any special education program, the service must be provided to meet the criteria for a free, appropriate public education as defined in federal regulation 34 CFR Section 300.17. EC Section 41851.2 [(Assembly Bill (AB) 876 (Canella)], Chapter 283, Statutes of 1991), required that the SSPI develop special education transportation guidelines for use by IEP teams that clarify "when special education transportation services, as defined in [EC] Section 41850, are required." EC 41850(d) defines "special education transportation" as: (1) The transportation of severely disabled special day class pupils, and orthopedically impaired pupils who require a vehicle with a wheelchair lift,

SELPA Long Beach Unified School District

Fiscal Year 2024-25

Examples that IEP teams may consider under EC 41850(b) include pupils with severe disabilities who are not placed in special day classes or otherwise enrolled in programs serving pupils with profound disabilities, pupils with orthopedic disabilities who do not use wheelchairs or require lifts, students beginning special education who did not receive transportation under an IEP in the prior fiscal year, pupils with other health impairments, learning disabilities or other cognitive disabilities, or pupils who live beyond reasonable distance to their school and would not, without transportation, have access to appropriate special education instruction and related services at no cost.

EARLY START SERVICES

Infants or Toddlers with Special Needs

The purpose of this document is to provide supplementary guidance to staff involved in the identification and education of children with disabilities from birth through five years old. Unless addressed in this document, all other District policies and procedures regarding the education of students with disabilities are to be followed.

SELPA Long Beach Unified School District

Fiscal Year 2024-25

Description:

Families whose infants or toddlers (from birth to three years of age) have a developmental delay or disability or an established risk condition with a high probability of resulting in a delay may be eligible to receive an "Early Start" in California.

Early Start services are typically provided for infants and toddlers who have vision, hearing, and orthopedic impairments or a combination of these disabilities. Some of the reasons for referral for Early Start services might include:

- Cognitive (ability to think and learn);
- Fine Motor (small actions, such as grasping an object between the thumb and finger or using lips or tongue to taste objects);
- Gross Motor (larger movements of arms, legs, feet or the entire body when crawling, running, and/or jumping);
- Language & Speech (ability to understand, talk and express self); and,
- Social/Emotional Behavior (ability to relate to others).

Long Beach Unified School District (LBUSD), as a single district Special Education Local Plan Area (SELPA), has an Early Start interagency agreement with the Regional Center and collaborates with each other to ensure that the infant referrals for evaluation and/or services are properly addressed.

Preschool Children with Special Needs

The LBUSD/SELPA offers high-quality preschool programs that prepare children, ages 3 through 5 years old, to arrive in kindergarten with the foundational skills necessary for school success. The District follows California's Early Learning and Development System as outlined in the "California Preschool Program Guidelines," California Department of Education, 2015. The LBUSD SELPA offers a variety of learning experiences for preschool-aged children who require special education services so that they can receive instruction geared to their individual needs. Special day classes, small group instruction, specialized services for young children on the autism spectrum, programs that build mobility skills, and remedial speech and language instruction are among the many services available. Individualized Education Programs (IEPs) are developed for each student by a team that includes the child's parents or caregivers, private school teacher if applicable, and the teachers, specialists, and administrators who will be working with the child.

REFERRING STUDENTS FOR A SPECIAL EDUCATION ASSESSMENT

Any person who believes that a student has or may have a disability and requires special education and related services may make a formal request in writing for a special education assessment.

Note: If a parent refers a child, birth to age three, or a child age three or four, who is not enrolled in a District preschool program, call, or have the parent call, the Early Start Administrator or designee in the Office of Special Education. If the request for a special education assessment is received from a parent whose child has been placed by the parent in a private school, follow the District's procedures for serving students with disabilities placed by their parents at private schools.

Once a written request for a special education assessment has been received, the District has 15 days to respond to the request. It is recommended that the school hold a Student Success Team (SST) meeting within the 15 days to address the parent concerns.

The SST, including administrator or designees may discuss with the requestor accommodations or modifications that can be made in the general education program to assist the student's progress in the general education curriculum. A SST meeting, involving the requestor, can be utilized to design the accommodations or modifications. The requestor may agree to postpone his/her request for a special education assessment until the accommodations or modifications have been implemented and the results evaluated.

Note: The team must end the meeting with either, (1) a proposed Assessment Plan and a Prior Written Notice (PWN) explaining why the District proposes to initiate the assessment process for special education identification, or (2) a PWN with the reason why the request for assessment is being refused. This must occur within 15 days from the day that the formal request was received. A District OSSS Special Education Administrator (SEA) must be contacted if a PWN to refuse assessment is the recommendation.

School site administrators or designees should take the following actions to ensure that requests for a special education assessment are handled

Section B: Governance and Administration

SELPA Long Beach Unified School District

Fiscal Year 2024-25

properly:

- When the signed and dated written request is received, it must be date stamped at the school site.
- A Special Education Assessment Plan must be developed and provided to the parent within 15 calendar days of receipt of the written request.
- When appropriate, discuss with the parent accommodations or modifications that can be made to the general education program (see above) and whether they want to delay the assessment until the modifications have been implemented and evaluated.

5. A description of the process being used to oversee and evaluate placements in nonpublic, nonsectarian schools and the method of ensuring that all requirements of each student's individualized education program are being met. The description shall include a method for evaluating whether the student is making appropriate educational progress:

Document Title: Local Plan

Document Location: SELPA OFFICE AND LBUSD WEBSITE

Description:

A description of the process by which the SELPA will fulfill the obligations to provide free and appropriate public education (FAPE) to a student age 18 to 21 (or age 22 under the circumstances described in *EC 56026(c)(4)*) who has been incarcerated in a county jail and remains eligible for special education services:

The obligation to make FAPE available extends to those otherwise-eligible adults in county jail, age 18 to 21, who: (a) had been identified as a child with a disability and had received services in accordance with an IEP, but left school prior to their incarceration; or (b) did not have an IEP in their last educational setting, but had actually been identified as a child with a disability. Description:

The Long Beach Unified School District SELPA will collaborate with local education authorities to provide the required special education and related services to all eligible students, ages 18 through 21 (or 22 pursuant to Education Code 56026(c)(4)) incarcerated in the Los Angeles County Jail during their incarceration.

Excerpt from Section H of the LBUSD Special Education: Recommended Practice and Procedure Manual (describes the responsible educational agency and the process by which eligibility is determined for all students incarcerated in the Los Angeles County Jail system) --

CORRECTIONAL FACILITY (JAIL)

Adults (aged 18 to 21 years) incarcerated in California adult jails and prisons who are entitled to a Free Appropriate Public Education (FAPE) if they meet the following criteria: (1) not graduated with a high school diploma; (2) at the time they turned 18, were identified as an individual with exceptional needs and had an Individualized Education Program (IEP) under the IDEA. However, an individual who was not identified as an individual with exceptional needs or did not have an IEP under the IDEA in the educational placement prior to his or her incarceration in an adult correctional facility is not entitled to a FAPE.

In December 2013, the California Supreme Court unanimously ruled in LAUSD v. Garcia that, under EC §55604, the school district where the pupil's parent resides is responsible for providing special education and related services to a qualifying individual who is incarcerated in a county jail. This decision means that every school district in California can be held responsible to provide, or contract to provide, special education and related services to eligible incarcerated young adults if the youth's parent resides in the district, even if the student is incarcerated outside of the school district's boundaries. This includes obligations for all of the rights afforded by the IDEA and related state law including child find/search and serve, the provision of FAPE in the least restrictive environment (LRE), and the right to due process. The following special education requirements do not apply to eligible individuals who are convicted as adults under State law and incarcerated in adult prisons:

Section B: Governance and Administration

SELPA Long Beach Unified School District

Fiscal Year 2024-25

1. The requirements relating to participation in general assessments; eligible individuals incarcerated in adult prisons are exempted from participation in state and district-wide assessment programs under the IDEA.
2. The requirements relating to transition planning and transition services do not apply with respect to such individuals whose eligibility under the IDEA will end because of their age before he or she will be released from prison.
3. The IEP Team may modify the individual's IEP or placement notwithstanding the LRE requirements and the IEP contents requirements if there is a bona fide security or compelling legal interest that cannot otherwise be accommodated.
