

ATECH ADVANTAGE REPORT

October/November 2025 Edition

LOOKING BACK ON OCTOBER...

CELEBRATING MANUFACTURING MONTH: 3RD ANNUAL MANUFACTURING CAREER EXPO

The Appleton Technical Academy hosted over 1,000 students inside our field house for our third annual manufacturing expo. Students from grades 7-12 were able to interact with 27 local businesses and trades. Hands-on activities and industry professionals provided opportunities for students to learn about career opportunities in manufacturing. Next year's event is tentatively scheduled for Wednesday, October 21, 2026. If you and your team would like to participate in our event, please reach out to Lead Teacher Paul Endter for more details.

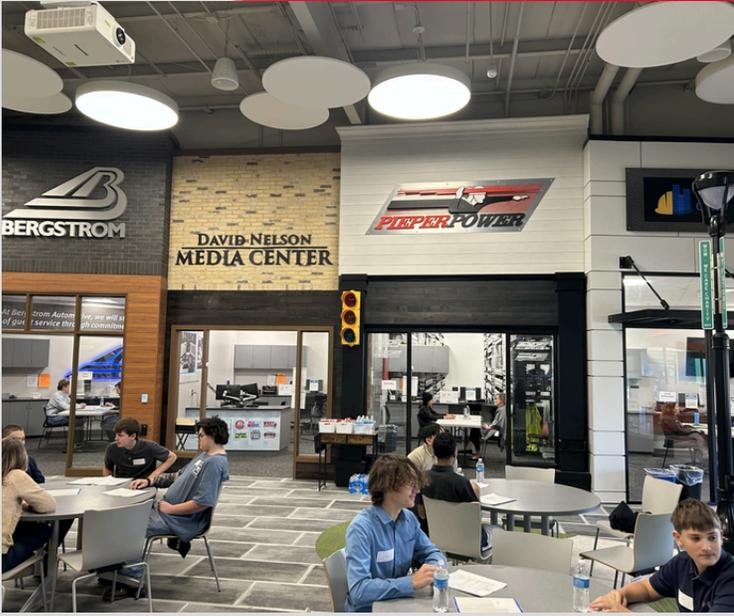

NOVEMBER HIGHLIGHTS

A TECH sophomores participated in mock job interviews hosted at our local Junior Achievement Center in Appleton. Students had opportunities to practice their skills in preparation for interviews this spring when they will apply for youth apprenticeship opportunities that align with their career interests. Special thanks to the entire Junior Achievement team and to those interviewers who participated in this event. We appreciate the use of this unique space at the JA Center for these mock interviews.

ATECH OPENS ACADEMY BAY

ATECH partners with Samsung and UTECH Learning to create a one of a kind learning space for students. This venture will equip students with in-demand skills for careers in energy, smart home technology, and in-home technical fields. Students will experience a blend of instruction and hands-on experiences with real-world simulations. Goals include development of pathways that result in youth apprenticeship opportunities for students and career opportunities for those students who wish to pursue careers beyond high school as service technicians. Please reference the following article from Samsung for more information about this emerging partnership. <https://news.samsung.com/us/samsung-care-powers-workforce-tomorrow/>
