Details of the workshops

Category 3 - IB Ed Workshop

Building Teacher Competencies

Recommended Audience

This workshop is recommended for teachers, non-teaching support staff, school administrators, governing body level participants who wish to further their knowledge and understanding of building teacher competencies. Groups of teachers who teach the same grade/subject may benefit from attending as a team.

Purpose of the Workshop

How can educators grow their pedagogical practices and identify teaching strategies that engage learners to make meaningful connections to their lives? Innovative teaching strategies can help to improve student retention and engagement. When students are actively involved in their learning process, they are more likely to remember and apply the lessons they learn. In this workshop teachers will explore how:

- Teachers use effective strategies to design learning that engages student curiosity and develops student agency.
- Using effective approaches to teaching results in students feeling satisfaction about what they learn and accomplish because it is connected to their own lives.

- When teachers implement both innovative and sustainable teaching strategies that make a meaningful and measurable difference in the classroom, they grow their impact on students for the long term.
- It is not necessarily just how we teach, but how we think about teaching that influences student outcomes.
- It is not necessarily just how we teach, but how we think about teaching that influences student outcomes.

NB: Prior to the training, you might be contacted to bring any required material for the workshop.

IB Ed-Category 3

Principles of Equitable and Inclusive Education

Recommended Audience
All IB educators (not only learning support teachers), school leaders, programme coordinators, consultants who wish to examine teaching and learning through the lens of inclusive and equitable education. Experienced IB teachers and school leaders who wish to inquire into further developing their approach to inclusive and equitable education are encouraged to attend.

Purpose of the Workshop
How can a school meet the IB principles of equity and inclusivity in the delivery of an IB Education? Inclusive education has grown from a movement that was about inclusion of students with disabilities to a holistic approach that is about all learners. It is concerned about belonging, participation and engagement of all students by removal of barriers.
This workshop will help:

- Develop an understanding of the IB's principles and approaches to equity and inclusive education.
- Develop specific pedagogical knowledge and approaches to deliver an IB education holistically to all students.
- Understand and develop an inquiry into the IB's policies and guidance on equity and inclusive education in learning, teaching and assessment.
- Gain knowledge to create whole school practices that foster equity and inclusive education.

PYP-Category 1

Building Your IB Programme: Primary Years

Recommended Audience
All Primary Years Programme (PYP) teachers: early years, Primary Years, new to PYP, and with some experience of the PYP.

Purpose of the Workshop

What does it mean to be an IB Primary years educator? An IB education supports the development of learners through a holistic approach within its inquiry-based and contextualized curriculum frameworks.

In this workshop, participants will explore how:

- an IB education develops agentic lifelong learners who are internationally-minded and demonstrate attributes of the IB learner profile
- approaches to teaching and learning help students develop the attitudes and skills they need for both academic and personal success.
- an inquiry-based learning environment develops students' curiosity and deeper understanding of concepts, contexts and conceptual understandings
- collaborating as a community of learners impacts learning and teaching and the success of every learner
- collaborating as a community of learners impacts learning and teaching and the success of every learner.

NB: Prior to the training, you might be contacted to bring any required material for the workshop.

Approaches to Teaching and Learning for DP/CP

Classroom Teachers – Cat 3

Recommended Audience

This workshop is suitable for Diploma Programme (DP) and Career-related Programme (CP) teachers of all experience levels.

Purpose of the Workshop

This workshop will explore the approaches to teaching and learning that are at the heart of an IB education. It will focus on developing an enhanced understanding of the educational philosophy underpinning IB programmes, as well as exploring practical strategies that can help prepare students to meet the challenges of an increasingly complex world. You will have the opportunity to draw on your own experiences and the experiences of other IB practitioners, as well as on insights from experts in the field, to develop a deliberate and dynamic approach to approaches to teaching and learning in the Diploma and Career-related Programmes.

NB: Prior to the training, you might be contacted to bring any required material for the workshop.
