

2026 – 27 Courses with College Articulation Agreements

College Articulation Agreements/Dual Enrollment allow high school students to enroll in college credit courses from Syracuse University, Niagara University, Hilbert College and SUNY Erie. Approved courses are taught by Iroquois High School faculty members and are equivalent to those offered at the college. Tuition will be charged at a reduced rate and is due at the beginning of the semester. Students must enroll, pay and be successful in order to receive an official transcript from the agreed college/university indicating credit earned with GPA, which can be transferred to other colleges.
