What does this school rating mean?

Overall school star designations are determined by a combination of academic and school quality indicators that are used to differentiate and identify schools to ensure that all schools are meeting the needs of all students. Academic indicators are used to determine 65 percent of the possible points, while the school quality and student success indicator determines 35 percent of the possible points. Possible points vary by school and year, however school ratings are based on the total earned points percent. Percentile ranks of each school is reported and is based on the grades in the school (Elementary, Middle and/or High school).

How are star ratings determined?

STAR RATING

- ★★★★★ 5 stars when a school has at least 75% of total earned points percent
- ★★★★☆ 4 stars when a school has at least 60% but less than 75% of total earned points percent
- ★★★☆☆ 3 stars when a school has at least 45% but less than 60% of total earned points percent

STAR RATING

- ★★☆☆☆ 2 stars when a school has at least 30% but less than 45% of total earned points percent
- ★☆☆☆☆ 1 star when a school has less than 30% of total earned points percent

What do the performance indicators mean?

Academic Achievement

The *Academic Achievement* indicator measures the performance of students in a school who demonstrated proficient skills and knowledge in a student's academic program. As measured by MCAP, this indicator is comprised of student achievement measures in math and English language arts. School points are determined by the percentage of students achieving proficiency, and the school's average performance level.

Academic Progress

The *Academic Progress* indicator measures the performance of students in a school who show meaningful relative growth in math and English language arts (Academic Growth) and who demonstrate proficient skills and knowledge in science, and who pass transitional grade course requirements (Credit for Completion of a Well-Rounded Curriculum). School points are determined for student growth in math and English language arts, for science and social studies by the percentage of students achieving proficiency, and for credit for completion of a well-rounded curriculum by the percentage of students passing 5th or 8th grade coursework requirements.

Graduation Rate

The *Graduation Rate* indicator measures the performance of students in a school who graduate with a regular high school diploma. This indicator is comprised of two measures of a cohort of ninth grade students graduating within four years or five years, respectively. Both the 4-year and 5-year cohort graduation rates for a given year's school report card use lagged rates (i.e., cohort graduation rates from the prior year) to measure performance.

Progress in Achieving English Language Proficiency

The *Progress in Achieving English Language Proficiency* indicator measures the performance of students in a school who show meaningful growth toward or have attained English language proficiency as measured by the MCAP test for multilingual learners. School points are determined by the percentage of multilingual learners achieving or making progress towards attaining proficiency.

Readiness for Post-Secondary Success

The *Readiness for Postsecondary Success* indicator measures the performance of students in a school who are on track for graduation and those students who have completed high school coursework along with a rigorous or comprehensive co-curricular standard. School points are comprised of a school's percentage of 9th grade students earning at least four credits in required coursework and percentage of graduating or exiting students achieving a rigorous or comprehensive co-curricular standard.

School Quality and Student Success

The *School Quality and Student Success* indicator measures the performance of students in a school who regularly attend school, report positive perceptions of their school, and have actively engaged in rigorous and/or co-curricular academic coursework outside of traditional English language arts and mathematics (elementary) or science and social studies (middle). School points are comprised of a school's percentage of not chronically absent students, school survey results, and measures of access to a well-rounded curriculum.
