

Project Discovery

James Fisher

Program Supervisor for Special Education

Project Discovery: Job Ready • Life Ready

What Is Project Discovery?

- A hands-on career education curriculum helping students explore and prepare for real-world jobs.
- Built on the principle: “Hear It. See It. Do It.” — students learn by doing.
- Serves K–12, transition, and adult programs, including students with special needs.
- Project Discovery bridges that gap by providing career-focused, experiential learning.

Four Learning Series

- Career Awareness — For elementary students: 11 career pathways, 55+ careers, 2 reading levels (K-3 & 4-5).
- Career Exploration — For middle, high school, adult: 230+ careers, 3 levels of instruction.
- Adapted — For students with significant challenges: adapts the Career Exploration series with dynamic supports (audio, text), video modeling.
- Job Skills Training — For high-functioning students: full 90-day curriculum per chosen career, 100+ careers, 2 progressive levels.

Features

- Hands-on learning: real job tools, tasks, experience.
- Multi-level & inclusive: works for diverse learning needs. Adapted supports.
- Broad career coverage: from creative arts to mechanics, health to business, etc.
