SCHOOL

D'AMOUR CENTER FOR FAITH, SERVICE & JUSTICE

*Challenging students to be agents of change and commit to creating
a more just and compassionate world.*

The **D'Amour Center for Faith, Service & Justice** is a shared space where faith and action, service and learning, and dialogue and reflection intersect. It offers meaningful experiences that teach our students to live their lives in response to something greater than themselves.

The School's community service, social justice, campus ministry, and servant leadership programming are all centralized under the D'Amour Center umbrella. Providing opportunities for enhanced intellectual inquiry and experiential learning across disciplines and throughout our community, the center is home to such programming as:

Social Justice Series

Creates spaces during weekly sessions for students to deepen their knowledge and engage in conversations around issues that are critical to building a more fair, just, and equitable world.

Service Activities

Instill a sense of responsibility for and dedication to volunteer service. While not a requirement, the majority of students choose to participate, often alongside our faculty.

Retreats

Allow students to reflect on their lives, learn to trust one another, and be contemplative together during trips to a local state park, community service projects, special dinners, and discussion groups.
