DECEMBER

NEWSLETTER

As we begin the month of December, we want to share what our school is focusing on to support every child's learning and well-being.

Attendance:

Coming to school each day helps your child build routines, make friends, and learn important skills. Thank you for doing your best to get your child here on time. Every day counts, and every child is welcome here.

Character Trait – Empathy:

This month, we are teaching students about empathy—how to understand how others feel and how to show kindness and care.

Schoolwide Focus:

We are practicing safe choices across the building. Students are learning the difference between safe and unsafe actions using simple visuals:

- Green = Go (safe choices)
- Red = Stop (unsafe choices)

These tools help children make decisions and understand what is expected.

As always, our staff is working hard to keep communication open and helpful. Please reach out if your family needs anything during this busy season.

Warmly,

Mrs. Carpenter

Principal, Center for Children and Families

DECEMBER

STOP THE SPREAD

WHEN IS SICK TO SICK FOR SCHOOL?

SEND YOUR CHILD TO SCHOOL IF THEY

Your child doesn't feel great but is able to participate in normal activities

KEEP YOUR CHILD HOME IF THEY

- Feel sick & have a feever of 100.4 or higher
- Test positive for Flu or COVID-19
- Can't participate in normal activities
- Have diarrhea & increased stool frequency
- Have a rash of unknown origin. Can come back once cleared by medical provider
- Have an Oozing sore/ wound you can't cover or contain

CALL A MEDICAL PROVIDER IF THEY..

- Have the sniffles for more than a week an aren't getting better
- Have asthma symptoms after using asthma medicine.

*IF THEY HAVE TROUBLE BREATHING AFTER USING AN INHALER, CALL 911

- Have a fever of 100.4 or higher for more than 2 days
- Throw up or have diarrhea for more than 2 days
