

Importance of School Attendance

Studies have shown that children who attend school regularly have greater academic success!

- Attending school consistently:
- Provides access to two healthy meals a day.
Supports students' social development.
- Helps students build more skills.
- Helps students build good routines and habits.
- Prepares students for the next grade level

If you're not sure if your student is well enough to attend school, check the chart below.

Come to School	Stay Home
<ul style="list-style-type: none">• Fever-free for 24 hours without meds.	<ul style="list-style-type: none">• Fever of 100.4 or more
<ul style="list-style-type: none">• No vomiting for 24 hours	<ul style="list-style-type: none">• Vomiting 1 or more times in 24 hrs
<ul style="list-style-type: none">• No diarrhea for 24 hours	<ul style="list-style-type: none">• Diarrhea 2 or more times in 24hrs
<ul style="list-style-type: none">• Cough, runny nose, sneeze	<ul style="list-style-type: none">• Cough, sneeze, runny nose AND fever
<ul style="list-style-type: none">• Head lice	<ul style="list-style-type: none">• Head lice is too distracting to student
<ul style="list-style-type: none">• Pink eye	<ul style="list-style-type: none">• Pink eye and the student is unable to participate in routine activities
<ul style="list-style-type: none">• Rash (known reasons)	<ul style="list-style-type: none">• Undiagnosed rash
<ul style="list-style-type: none">• Sore throat and no fever	<ul style="list-style-type: none">• Sore/strep throat with a fever
<ul style="list-style-type: none">• Exposed to someone with COVID-19	<ul style="list-style-type: none">• COVID symptoms with a fever
<ul style="list-style-type: none">• Tummy ache	<ul style="list-style-type: none">• Tummy ache with a fever and vomiting or diarrhea 2 or more times in 24 hrs
<ul style="list-style-type: none">• Headache	<ul style="list-style-type: none">• Headache with a fever or vomiting/diarrhea
