

Sonnesyn Family Engagement Plan

(Can be put on school letterhead)

School Vision and Family Engagement Targets

Vision Statement:

At Sonnesyn we have an inclusive definition of family that is respectful of each child's family structure. Therefore, family is not limited to just parents or legal guardians of children in the home. For example, a family may also include new spouses and partners of parents, extended families (grandparents, aunts, uncles, cousins, etc.), step-relatives, or any other person a family unit designates as a family member. With this in mind, we understand that support may look different from family to family. School staff will be mindful of who has legal access to student information and ask administration if they are unsure.

We believe family partnerships are integral to the success of our students. We believe families can support, encourage, and reinforce regulation at school. It is essential to maintain open communication between the home and the school. Families have the right to regular communication concerning their child. This includes reaching out to families early in the year through formal and informal methods of communication in order to establish positive partnerships. Whenever possible, staff will utilize the family's preferred method of communication (email, phone, text, letter). It is important that the school community continually increase their ability to function comfortably in cross-cultural settings and to interact positively with people from cultures and races that differ from their own.

Targets:

- 1. Strengthen communication between the school and families.*
- 2. Increase family participation in school events and decision-making.*
- 3. Support families in helping students achieve academic success.*
- 4. Create a welcoming, inclusive environment for all families.*

Communication Strategies:

Strategy	Description	Frequency	Responsible Party
Welcome Letter	Intro to Class Letter from Teacher	<i>Once</i>	<i>Teacher or Specialist</i>
