

Pflugerville Independent School District

Windermere Elementary School

2025-2026

Accountability Rating: B

Distinction Designation

Academic Achievement in English Language Arts/Reading

Academic Achievement in Science

Top 25 Percent: Comparative Academic Growth

Board Approval Date: October 16, 2025

Public Presentation Date: September 10, 2025

Mission Statement

Our Windermere community focuses on providing students with quality instruction, encouragement, and academic excellence in a safe, enriching, and nurturing environment as they continue to grow, thrive, and develop into successful, productive members of our community.

Vision

We envision that our students will become:

- Enthusiastic, life-long learners,
- Effective problem solvers, decision makers, and future leaders
- Enabled to achieve their personal potential, as well as work with others using effective, Win-Win communication
- Empathetic to others' aspirations, needs, and cultures
- Empowered to achieve excellence in all aspects of life equipped with technological knowledge and skills.

Value Statement

We believe that:

Our community embraces a superior, quality education as integral to student success. We celebrate and incorporate diversity and individuality in the WES family. Our diverse student population mandates that individual potential be met with unlimited opportunities. Dedication to an effective work ethic maximizes educational and life impact. A safe campus enhances our educational environment. Recognition of achievement motivates greater student learning.

Comprehensive Needs Assessment

Demographics

Demographics Summary

Demographics

In 2018, Windermere Elementary served third through fifth graders while Windermere Primary School served pre-kindergarten through second grade students. In 2019, the two campuses merged to form Windermere Elementary School, which serves PK-3 through fifth grade. Windermere Elementary School is a Title I campus nestled near the boundary of Pflugerville and Round Rock. The school serves over 700 diverse students. In addition to our core instruction, Windermere Elementary offers a variety of extra-curricular activities, including Destination Imagination and University Interscholastic League (UIL) as well as student council, math pentathlon, and robotics. Additionally, in the 2024-2025 school year Windermere Elementary became a Unified Champion School adding an afterschool Unity Club Program.

Students

Over the last few years, Windermere Elementary's total student enrollment numbers have remained above 700 students, where we proudly identify as one of the most diverse campuses in PflISD. Our students who identify as Two or More Races have increased from 6.4% to 8.25% over the past two years and our students who identify as African American have increased from 21.9% to 23.6% over the past two years. The other student racial demographics have remained stable.

The student racial demographics are summarized in the chart below.

Student Demographics - Windermere Elementary School			
Source: TAPR & OnDataSuite			
	2022-2023	2023-2024	2024-2025
Total Enrollment	756	705	703
African American	21.9%	22.5%	23.61%
Hispanic	40.2%	41%	38.69%

White	23.8%	24%	23.61%
American Indian	0.1%	0.1%	0.14%
Asian	6.8%	5.8%	5.55%
Pacific Islander	0.5%	0.4%	0.14%
Two or More Races	6.4%	5.97%	8.25%

Special Programs

In the last few years, Windermere Elementary's economically disadvantaged student group has held steady around 60%. The identification of students who are economically disadvantaged is determined by the free and reduced lunch applications. Windermere Elementary is committed to strengthening the completion process for the upcoming 2025-2026 school year. This will ensure the most accurate economic picture of our school community, allowing us to better serve our students and their families.

Windermere Elementary has had a decrease in students served through Section 504 from 6.2% to 4.27%. Section 504 prohibits discrimination on the basis of disability, and Section 504 students are students with a disability that results in a substantial limitation of one or more major life activities. The decrease in the number of Section 504 students is likely due to students with direct dyslexia services now being served through special education. Students identified as having dyslexia has increased from 4.11% to 6.28% at the end of the 2024-2025 school year.

The number of students served through special education has consistently increased over the last few years from 23.19% in 2024 to 26% in 2025. Windermere Elementary is proud to serve all students. Most of our students in special education are served through the resource and inclusion setting, which involves serving the student in the regular education classroom with special education support with small-group help in the special education classroom. Additionally, we have three self-contained special education classrooms: a Communications classroom, which provides services for students who have a significant communication deficit and challenging behaviors associated with the lack of communication skills; and two Essential Academics classrooms, which provide services for students who have a significant cognitive deficit and access grade-level standards through prerequisite skills. Additionally, Windermere Elementary has two Early Childhood Special

Education (ECSE) classrooms that serve children between the ages of three and five with an identified disability and need for special education service. This includes Walk-on Speech Therapy, Preschoolers Acquiring Language Skills (PALS), Pegasus, and Phoenix.

Finally, the student mobility rate is holding steady between 14% and 15% over the last three years.

The special program identification and participation summary is summarized in the chart below.

Student Special Program Identification/Participation - Windermere Elementary School			
Source: TAPR & OnDataSuite			
	2022-2023	2023-2024	2024-2025
Economically Disadvantaged	53.75%	60%	58.32%
Emergent Bilingual	14.5%	13%	14.65%
At-Risk	49.28%	53.9	59.32%

Homeless	1.15%	2.7%	3.7%
Migrant	0.0%	0.0%	0.0%
Intervention Indicator	9.3%	14.3%	7.97%
Campus Mobility Rate	14.9%	14.1%	14.4%

Staff

The last few school years we have retained a significant number of our teachers. For the 2024 - 2025 school year, we retained 80% of our teachers from the previous school year. For the 2025 - 2026 school year, we retained 90% of our teachers from the previous school year. This teacher retention is a testament to our campus culture and climate. For the 2025-2026 school year, Windermere has only one teacher with 0 years of experience and three teachers with under 3 years of experience.

The teaching staff compared to the student demographics are progressing to be representative of all students at WES. We are continuing to seek out teachers of color who representative of our student population.

Our most recent teacher demographics are summarized in the table below.

Teacher Demographics - Windermere Elementary School		
Source: TAPR		
	2022-2023	2023-2024
Total Teachers	47.1	49
African American	4.2%	10.2%
Hispanic	14.8%	14.2%
White	76.7%	71.5%
American Indian	0.0%	0%
Asian	4.2%	4.1%
Pacific Islander	0.0%	0%
Two or More Races	0.0%	0%

Demographics Strengths

We are proud to be a comprehensive pre-kindergarten (3 & 4 year olds) through 5th grade campus with a diverse community that is supported and celebrated.

We have a Campus Culture Committee, which strives to celebrate every culture in our community to ensure every student feels seen and has a sense of belonging. In the 2024-2025 school year, we hosted Diversity Night representing 16 unique cultures represented at Windermere and around the world. Nearly 400 families enjoyed the night including cultural performances, art styles from around the world, family and staff cultural booths with food samples, and stations with crafts for 7 geographical locations.

At Windermere Elementary, we believe every student should receive the best public education, including differently abled students. As previously mentioned, we are proud to offer a robust special education program, including several Early Childhood Special Education (ECSE) classrooms, two Essential Academics classrooms and a Communications class as well as resource and inclusion services.

We are also proud to extend our students' learning. We serve gifted and talented students through a range of services. We have continued our G/T Enrichment for our gifted and talented students. We also host the district's Accelerated Student Curriculum to Engage and Nurture Student Development, or ASCEND program. This program is a full-time GT service for 22 fourth and 22 fifth graders selected from all around PfISD. The ASCEND program offers accelerated math instruction as well as added depth, complexity, and extensions in science, English, and social studies curriculum as well as debate.

Teacher demographics at WES are increasingly representative of the student population. We will continue to make that a priority moving forward, as we believe that all of our students deserve to see themselves represented in our staff. About 90% of our teaching staff has more than three years of experience. Our early career teachers are supported by our increasingly veteran teaching staff and the teacher mentor program to help build strong teaching practices, support, and retention throughout their first three years of the profession.

Problem Statements Identifying Demographics Needs

Problem Statement 1: 26% of our student population is served through special education, and some of our general education teachers lack the necessary training to respond to the increasing complexity of student needs.

Root Cause: Previously, our students served through special education could be clustered into one class in each grade-level. For the 2025-2026 school year, this has increased to three classrooms on each grade-level. This means the number of teachers requiring training has increased to 18.

Problem Statement 2: With approximately 60% of students classified as economically disadvantaged and a steady student mobility rate between 14% and 15%, challenges persist around ensuring equitable access to resources and continuity of learning (closing gaps) for these high-need student groups.

Root Cause: The reliance on free and reduced lunch applications to determine economic disadvantage may lead to under-identification or delays in accurately capturing the full scope of student needs. This is compounded by the steady student mobility rate (14-15%), which disrupts consistent access to programs and services.

Student Learning

Student Learning Summary

2024-2025 Universal Screener Results

Students in grades K-5th are assessed with universal screeners/progress monitoring instruments in reading and math at beginning (BOY), middle (MOY), and end (EOY) of the year to identify students who are at-risk for reading and/or math readiness, or who need intervention. In Kindergarten we made huge gains in both Reading and Math last school year. We are continuing to make sure that high quality instructional materials are being utilized for both subjects. First and second grade both showed growth in reading from beginning of the year to the end of the year.

Kindergarten				
TX-KEA Results: 2024-2025				
	% On Track		% Monitor/Support	
	BOY	EOY	BOY	EOY

2025 STAAR Results by Subject Area - Overall Combined 3rd-5th Grades

Overall, STAAR Reading scores have maintained for Approaches, Meets and Masters when looking at percentages of all 3rd, 4th and 5th graders combined. This has been consistent for the last 3 years. STAAR Math shows an increase in Approaches by 5% from the last year and maintains or improves in both Meets and Masters. 5th grade STAAR Science scores have decreased in every performance level for the last two years.

STAAR RESULTS BY SUBJECT AREA									
	READING			MATH			SCIENCE (5th Only)		
	2023	2024	2025	2023	2024	2025	2023	2024	2025
Approaches	80%	79%	80%	68%	60%	65%	73%	66%	63%

STAAR RESULTS BY SUBJECT AREA

2025 TELPAS Composite Ratings and Yearly Progress

The data below represents the 2025 TELPAS outcomes for Windermere. Students who have a first language other than English are assessed through TELPAS every year to determine their growth and progress. English language proficiency is assessed through TELPAS in the following 4 domains: Reading, Listening, Speaking and Writing. The TELPAS overall composite scores indicate that students are progressing from beginning to advanced high appropriately as we met our long term target for English Language Proficiency.

TELPAS Overall Composite Scores by Years in U.S. Schools for Windermere EL for 2024 - 2025

Years in U.S. Schools	Beginning	Intermediate	Advanced	Advanced High
	% Total	% Total	% Total	% Total
First Year	0.00%	13%	7%	80%
Second Year	9%	45%	27%	18%

Relative Performance (Eco Dis: 59.1%)		79	C	
Closing the Gaps	62	81	B	30%

Missed Closing the Gaps Targets

- **Academic Achievement in Math: All Students, African American student group, Hispanic student group, High Focus student group**
- **Academic Growth in Math: Hispanic student group, High Focus student group**
- **Student Success: Hispanic student group, High Focus student group**

Student Learning Strengths

Strong Growth in Early Reading Skills:

Kindergarten, 1st, and 2nd grades all showed notable growth in reading from the beginning to the end of the year. For example, Kindergarten reading on-track rates nearly doubled from 37% to 74%, while 1st and 2nd grades improved by over 30 percentage points each.

Effective Use of High-Quality Instructional Materials:

Continued focus on utilizing high-quality materials in both reading and math for early grades supports foundational skill development, contributing to the significant reading gains in Kindergarten through 2nd grade.

Stable STAAR Reading Performance in Upper Grades:

STAAR Reading scores for 3rd through 5th grades have remained consistent over the last three years across all performance levels (Approaches, Meets, Masters), demonstrating steady reading achievement in upper elementary.

Improvement in STAAR Math at Upper Grades:

STAAR Math scores for 3rd-5th graders show a 5% increase in the Approaches category and steady or improved performance in Meets and Masters levels, reflecting progress in math learning at the upper grade levels.

Positive English Language Proficiency Growth:

Students assessed through TELPAS are progressing appropriately across reading, listening, speaking, and writing domains, meeting long-term targets for English language proficiency.

Problem Statements Identifying Student Learning Needs

Problem Statement 1: STAAR Science scores for 5th graders have declined across all performance levels over the past two years, with approaches decreasing from 73% to 63% and masters dropping from 21% to 16%

Root Cause: There is a lack of dedicated professional development, and aligned instructional resources compared to reading and math initiatives. The curriculum for science is still new to staff.

Problem Statement 2: Students taking 3rd, 4th and 5th in STAAR only modestly increased in math (19% to 25%), highlighting the need to deepen instructional rigor to move more students to advanced performance.

Root Cause: Plateaued mastery levels in upper grade math stem from insufficiently rigorous, differentiated instruction and variable fidelity in implementing advanced strategies despite existing PD and collaborative structures.

Problem Statement 3: Math progress in 1st and 2nd grades shows stagnation or decline, with 1st grade math on-track rates barely improving (37% to 39%) and 2nd grade math rates decreasing (55% to 51%) by year-end

Root Cause: There is inconsistent implementation of aligned instructional strategies and insufficient targeted professional development within the Math Vertical Learning Community and PLCs.

Problem Statement 4: Overall STAAR reading scores have remained stable or improved in the approaches performance level, meets and masters levels have plateaued in reading (32%), highlighting the need to deepen instructional rigor to move more students to advanced performance.

Root Cause: There is insufficient rigorous, differentiated instruction (utilizing quality reading materials) and variable fidelity in implementing advanced strategies despite existing PD and collaborative structures.

School Processes & Programs

School Processes & Programs Summary

Campus Leadership and Decision-Making Committees

Windermere Elementary has several leadership committees, including Team Leaders, Campus Climate and Culture Team, Culture Committee, Reading and Language Arts Vertical Learning Community, PBIS and Math Vertical Learning Community. Additionally, Windermere Elementary has a few other committees, including CAAC and PTO.

Our Team Leaders represent each grade-level team as well as our special education team, intervention team, and specials team. The Team Leaders meet the second Wednesday of every month to review campus academic data and assess current campus needs to make decisions regarding instructional programs. In addition, they troubleshoot current campus problems to create solutions that benefit our students and teachers. At the end of the year, the Team Leaders plan for the upcoming school year by creating the following year's school-wide schedule, establishing dates for campus-wide events, and updating the staff handbook.

Our Campus Climate and Culture Team has a member from each grade-level team as well as our special education team, intervention team, and specials team. The Campus Climate and Culture Team meets the fourth Wednesday of every month. This committee integrates current district initiatives of PBIS, Trauma Informed SEL, Restorative Practices and Attendance into a blended model that is supported by one campus based team. The intended outcome is to work smarter, not harder to implement school wide systems that support the whole child.

Our Campus Culture Team has a member from each grade-level team. This committee meets the fourth Wednesday of every month and is committed to ensuring all students' cultures are celebrated throughout the school year. This committee identifies all relevant cultural celebrations and then helps decorate a main hallway bulletin board and showcase for the various cultural celebrations. Additionally, this committee creates videos to share information about these cultural celebrations, which are streamed on our school-wide morning broadcast. They also plan and lead the Diversity Night to celebrate the cultural diversity of our school, families, and community.

Our Reading and Language Arts Vertical Learning Community meets on the fourth Wednesday of every month. This team consists of a representative from kindergarten through fifth grade as well as a special education teacher and interventionists. This committee is focused on ensuring our reading and language arts instruction is aligned throughout all grade-levels so that students receive consistent academic vocabulary and strategies throughout their time at Windermere Elementary. For the 2024-2025 school year, this committee's primary focus is on aligning written reading responses. Members will analyze student writing samples from each grade-level to improve instructional practices and student learning outcomes.

Our Math Vertical Learning Community also meets on the fourth Wednesday of every month. This team consists of a representative from kindergarten through fifth

grade as well as a special education teacher and an interventionist. This committee is focused on ensuring our math instruction is aligned throughout all grade-levels so that students receive consistent academic vocabulary and strategies throughout their time at Windermere Elementary. For the 2024 - 2025 school year, this committee's primary focus is aligning our campus-wide math problem solving strategies. Members will analyze student problem solving samples from each grade-level to improve instructional practices and student learning outcomes.

The Campus Academic Advisory Council (CAAC) continues to meet quarterly to help inform decisions and the campus leadership team meets monthly. The campus leadership team shares concerns and problem solves together so that there is shared decision-making.

The Parent-Teacher Organization (PTO) meets once a month. PTO is a volunteer group of parents and teachers that work together to plan family-fun events, build a strong community and raise funds for school needs. All meetings offer an in-person and virtual option for participants.

The Community Schools Committee is an initiative that engages local community members as active stakeholders in schools. It provides a platform for them to voice opinions, volunteer, and learn how to support local education. By fostering collaboration, the committee strengthens the partnership between schools and the community, enhancing student success and creating a shared sense of responsibility for the school's growth.

Professional Development

Professional development needs are based on campus assessment data and discipline data. Individual professional development needs are based on T-TESS appraisals and student performance data. Additionally, Windermere Elementary strives to give teachers voice and choice in professional development. Our campus professional development plan includes our Windermere Flight School, Professional Learning Communities, and self-selected professional development.

Our Windermere Flight School occurs on the third Wednesday of every month afterschool. Teachers learn strategies to ensure their instructional practices and our student outcomes soar. Our targeted objectives for this time include strategies for teaching reading, campus-wide math problem solving strategies, implementing small group instruction, cooperative learning strategies, and analyzing student data.

For the 2024 - 2025 school year, teachers completed the Upbeat Survey. According to this survey, 85% of teachers stated the professional development organized by my school's leadership team helps me improve my teaching. This is a 14 percent increase from the 2023-2024 school year Upbeat Survey. For the 2025-2026 school year, Windermere teachers will be able to continue to request professional development based on their own instructional goals, which are created through the T-TESS goal setting process.

Our Professional Learning Communities (PLCs) meet every two weeks with administrators. During this designated PLC time, grade-level teachers, special education teachers, interventionists, and administrators work together to identify essential student learning objectives, decide how to evaluate student learning, and analyze student data. Then, the PLC decides how to support struggling students as well as extend learning for students who understand the concepts. For the 2025 - 2026 school year, our PLCs are focusing on math instruction in response to the 2024-2025 math data. Teams will create common assessments to evaluate students'

understanding and respond to students' needs based on the resulting data.

Scheduling

The school wide schedule was developed to ensure that every grade level has the appropriate amount of instructional minutes. Furthermore, the schedule designates whole group and small group instruction times, which allows administration to strategically plan walk-throughs and observations. This designated time also ensures Tier III pull-outs, including intervention and special education, do not occur during whole group instruction. We will also be updating the master schedule to include embedded time for PLC's.

The Special Areas teachers have a rotating schedule that allows students to obtain their required special areas and P.E. minutes. We will prioritize students needing support regarding HB1416 through required accelerated instruction for math and reading. If students did not attend summer school, after school tutoring will be provided for additional support. The school wide schedule has been arranged in a way that will allow for interventions to take place during the required intervention times.

Student Support Services

Our behavior expectations are posted throughout the building. Students caught "soaring" by meeting the hallway, cafeteria, classroom expectations are rewarded with a SOAR buck. These "bucks" may be used for in class SOAR store with tangible and other exciting incentives, or saved for campus wide events. Additionally, these "bucks" are being tracked digitally. This digital system allows administration to ensure all staff members are implementing the school-wide PBIS system with fidelity. Teachers are also able to recognize students who exceed campus expectations by nominating a student for the Golden Feather Award. Students nominated for this award receive a certificate that is displayed in the main hallway and are featured on our campus morning broadcast. Finally, a behavior flowchart and an immediate help request form have both been linked on a staff site in order to help with behavior needs. For the 2024-2025 school year, we will emphasize the difference between minor and major behaviors. We will remind teachers throughout the year to refer to the flowchart and ask some accountability questions to ensure prior steps have been addressed.

Our students experiencing homelessness is over 3%, and close to 58.32% of our students are considered economically disadvantaged. To support these students, we provide a variety of services. Our students experiencing homelessness are served through McKinney Vento, which provides transportation, daily necessities, holiday and break resources, and school supplies. In addition to these services, our campus has a clothing closet. This closet also has additional school supplies and is available to our students as well as their families. Finally, our school counselor coordinates the Backpack Friends program. This program works with the surrounding community to provide food to our families in need.

Our Problem Solving Support Team (PSST) reviews student academic and behavior data to support students and teachers. This team creates plans to support student learning outcomes based on the Multi Tiered System of Support approach.

Communication

All stakeholders will receive timely communication. The principal will continue to send out the Windermere Weekly to parents and guardians every Sunday. This digital newsletter includes important information and upcoming campus dates. The administrative team will continue to send out the Talon Times to parents every Sunday. This website includes important information, upcoming campus data, and weekly action items.

Teachers are expected to work in active partnership with parents and guardians. Teacher communication includes in-person conferences, emails, and phone calls.

School Processes & Programs Strengths

Exemplary and Master Designated Teachers

In the state of Texas, House Bill 3 established the Teacher Incentive Allotment, whereby outstanding Texas teachers can earn a designation – a distinction awarded to highly effective public school teachers. The three levels of designation are Recognized, Exemplary, and Master.

Windermere Elementary is proud to have 23 teachers designated as either recognized, exemplary or master teachers.

Vertically Aligned Instruction

Windermere Elementary has been a pre-kindergarten through fifth grade campus for five years. Prior, pre-kindergarten through second grade and third through fifth grade were on two separate campuses. We are dedicated to aligning our reading and math instruction. This alignment continues to improve through our Reading and Language Arts Learning Vertical Community and Math Vertical Learning Community. Our Reading and Language Arts Vertical Community has improved student writing outcomes, which was evident in our STAAR RLA scores.

Professional Development

Windermere Elementary has designated the third Wednesday of every month toward our staff's professional development. The Windermere Flight School will improve our instructional practices and student outcomes through targeted professional development. Windermere Flight School, PLCs, and self-selected PD provide teachers voice and choice, resulting in increased teacher satisfaction and professional growth, as shown by the 85% favorable Upbeat Survey response.

Strategically Designed Scheduling

The school-wide schedule thoughtfully balances instructional time, intervention periods, and special areas, allowing for targeted support without disrupting core learning.

Effective Communication Practices

Weekly digital newsletters to families and clear teacher-parent communication expectations foster transparency and engagement among all stakeholders.

Extracurricular Opportunities

At Windermere Elementary, we are committed to growing the whole child. We have a multitude of extracurricular programs and enrichment opportunities for our students and families, including:

- Destination Imagination
- University Interscholastic League
- Math Pentathlon
- Chess Team
- Robotics Team
- Student Council
- Choir
- Academic Night
- Art Show and Diversity Night
- Pancakes in Pajamas
- Valentines Day Dance

Problem Statements Identifying School Processes & Programs Needs

Problem Statement 1: While the PBIS system and behavior flowcharts are well established, ongoing teacher reminders and accountability measures indicate challenges with consistent referral practices and fidelity in differentiating minor vs. major behaviors.

Root Cause: Teachers require additional training in student engagement strategies aligned with current best practices. Furthermore, the existing social-emotional learning (SEL) curriculum is outdated and lacks consistent implementation across grade levels and teams.

Problem Statement 2: Teacher engagement (ex. being in the power zone, facilitating student lead instruction, etc.) is a concern across all grade levels based on administrator and instructional coach walkthroughs throughout the year.

Root Cause: Due to behavior needs, administrators have not been able to complete walkthroughs as often as needed to create change.

Problem Statement 3: Data from the 2024-2025 school year shows a focus on aligning campus-wide math problem-solving strategies, highlighting a need for more cohesive instructional practices and assessments.

Root Cause: While the Math Vertical Learning Community is actively working on alignment, there is currently limited consistency in instructional practices and common assessments across grade levels.

Perceptions

Perceptions Summary

Windermere Elementary continues to provide parent engagement opportunities as parents have asked for more of this, including the opportunity to be involved in volunteer opportunities. This includes helping in the library, helping teachers in their classrooms, organizing events through PTO and serving as members of the CAAC. We have two academic nights and a fine arts/diversity night planned for the year.

The principal continues to provide weekly communication to staff and parents regarding upcoming events and initiatives in the Windermere Weekly. This Smore newsletter is sent out by email, is posted on the school Facebook site and is listed on the school website under Principal's Weekly Update.

As evidenced in survey data, teachers at Windermere feel that they work hard on building trusting relationships with parents, but don't always feel like parents have confidence in their abilities.

According to the upbeat survey data, teacher perception is that behaviors are not consistently enforced by campus teachers and are not fairly applied across the campus.

During the 2024-2025 school year, an average 93.6% of our student population attended school on a daily basis. However, 19.8% of students missed 10% or more school days.

Windermere had a new general education behavior interventionist during the 24-25 school year who helped students all day everyday with behavior. We're continuing to work on social-emotional learning but will push for even more involvement by teachers during the 25-26 school year. Over the course of 2 years, referrals to administrators for behavior assistance has decreased, from 57 referrals in the 2023-2024 school year to 32 in the 2024-2025 school year.

Perceptions Strengths

We continue striving to be a campus that promotes kindness and safety through No Place for Hate and our PBIS committee. Communication with our parents continues to be strong as parents have given feedback stating that they like being up-to-date as much as possible. Using the new app the school purchased, parents and teachers have a way to communicate with each other in a more efficient way. Windermere has been a community school for so many years and we continue to have multiple families that have gone through the school and come back either as parents or as employees. It creates a true community family feeling that can be felt all over the school.

- **Active Parent Engagement Opportunities:**

Windermere offers varied ways for parents to be involved, including volunteering, event organization through PTO, and participation in CAAC, responding directly to parent requests for increased engagement.

- **Consistent and Multi-Platform Communication:**

The principal's weekly Windermere Weekly newsletter effectively keeps staff and families informed via email, the school website, and social media, supporting transparency and connection.

- **Positive Progress in Behavior Support:**

The introduction of a full-time behavior interventionist and increased teacher involvement in social-emotional learning contributed to a significant decrease in administrator behavior referrals over two years.

- **High Overall Student Attendance:**

Maintaining an average daily attendance rate of 93.6% reflects strong overall student engagement with school.

Problem Statements Identifying Perceptions Needs

Problem Statement 1: Although overall attendance is high, approximately 20% of students miss 10% or more school days, signaling a need for targeted strategies to reduce chronic absenteeism and improve student engagement.

Root Cause: Existing attendance supports and initiatives are not fully integrated with family engagement efforts or sufficiently targeted to address barriers faced by economically disadvantaged and homeless students, despite available services like McKinney Vento and Backpack Friends.

Problem Statement 2: Behavior expectations are not consistently enforced or fairly applied across the campus, which may undermine the positive behavior culture and student support efforts.

Root Cause: The inconsistent enforcement and unfairness perceptions stem from updated social-emotional learning strategies coupled with variable fidelity in applying the campus-wide PBIS framework and behavior flowchart protocols.

Goals

Goal 1: PfISD will recruit, support, and retain teachers and principals.

Performance Objective 1: WES will provide a fair and equitable hiring practice that is inclusive of the input of current WES staff and utilizes a rubric that supports the vision of PfISD with a decrease from 10% turnover at the end of 2025 to 5% teacher turnover by the end of 2026.

Evaluation Data Sources: Upbeat climate survey results will indicate staff input in hiring quality teaching staff.

Goal 1: PfISD will recruit, support, and retain teachers and principals.

Performance Objective 2: WES will support and develop all campus staff by providing monthly ongoing professional development which will increase teacher satisfaction from 79% to 90% as evidenced in teacher Upbeat survey at the end of 2025-2026.

Evaluation Data Sources: Fewer than 5% of the staff leave at the end of the 2025-2026 school year due to reasons other than moving/retiring
Quality staff hired as evident through T-TESS data

Goal 2: PfISD will build a foundation of reading and math.

Performance Objective 1: By June 2026, there will be increases in both Growth and Achievement on STAAR Math tests across grades 3-5 for all student groups to meet Closing the Gaps targets.

Improved Spring 2026 STAAR outcomes from the prior year will be:

- Math Academic Growth from 68% to 76%
- Approaches from 67% to 74%
- Meets from 43% to 50%
- Masters from 26% to 33%

To meet HB3 Early Childhood Math Goals:

The percent of 3rd grade students scoring at Meets Grade Level or above on STAAR Math will increase from 33% in June 2025 to 49% by June 2026 and to 62% by June 2030.

HB3 Goal

Evaluation Data Sources: STAAR Math Assessment
Campus and District Assessments

Goal 2: PfISD will build a foundation of reading and math.

Performance Objective 2: By June 2026, there will be increases in both Growth and Achievement on STAAR Reading Language Arts (RLA) tests across grades 3-5 for all student groups to meet Closing the Gaps targets.

Improved Spring 2026 STAAR outcomes from the prior year will be:

- RLA Academic Growth from 75% to 83%
- Approaches from 81% to 84%
- Meets from 58% to 60%
- Masters from 33% to 35%

To meet HB3 Early Childhood Literacy Goals:

The percent of 3rd grade students scoring at Meets Grade Level or above on STAAR RLA will increase from 41% in June 2025 to 58% by June 2026 and to 68% by June 2030.

HB3 Goal

Evaluation Data Sources: STAAR Reading Assessment
Campus and District Assessments
Walk-through feedback
Progress Monitoring Data

Goal 2: PfISD will build a foundation of reading and math.

Performance Objective 3: By June 2026, there will be increases at all performance levels on 5th grade STAAR Science tests for all student groups to meet Closing the Gaps Student Success targets.

Improved Spring 2026 STAAR outcomes from the prior year will be:

- Approaches from 64% to 72%
- Meets from 30% to 39%
- Masters from 17% to 25%

Evaluation Data Sources: STAAR Science results
Campus and District Assessments
Walk-through feedback

Goal 2: PfISD will build a foundation of reading and math.

Performance Objective 4: Throughout the 2025-2026 school year to meet HB3 Goals, WES K-5 teachers will increase their knowledge of best practices in tiered reading and math interventions resulting in increases in on-level students from EOY universal screeners in 2025 to EOY 2026, specifically:

-Kinder Reading: from 74% to 80%

-Kinder Math: from 54% to 75%

-1st - 3rd Grade Reading: from 58% to 63%

-1st - 3rd Grade Math: from 41% to 63%

HB3 Goal

Evaluation Data Sources: STAAR

Progress Monitoring

Star360 data

TX-KEA

Goal 2: PfISD will build a foundation of reading and math.

Performance Objective 5: By the end of the 2025-2026 school year, the English proficiency of 60% of Emergent Bilingual students in grades 3rd-5th will increase at least one level on the TELPAS composite ratings.

Evaluation Data Sources: Telpas

Goal 3: PfISD will connect high school to career and college.

Performance Objective 1: By May 2026, WES will promote College and Career Readiness with students and parents by wearing college shirts each Wednesday of the school year and measured by observation of participation.

Evaluation Data Sources: Conversations with students about colleges and careers discussed.

College/Career T-shirt participation.

Goal 4: PfISD will improve low performing schools.

Performance Objective 1: During the 2025-2026 school year, WES will increase the student attendance rate from 93% in the prior year to 98%. The

Chronic Absenteeism rate will decrease from 20% to 15%.

Evaluation Data Sources: Attendance Daily average at or above 98%, Chronic Absenteeism rate

Goal 4: PfISD will improve low performing schools.

Performance Objective 2: During the 2025-2026 school year, WES will utilize Restorative Practices/PBIS Rewards and SOAR bucks to encourage positive behavior and reduce the number of office referrals from 32 in the prior school year to no more than 30.

Evaluation Data Sources: Office referral data
Student climate survey data

Goal 4: PfISD will improve low performing schools.

Performance Objective 3: During the 2025-2026 school year, WES will collaborate with parents and the community in meaningful ways to improve the culture, climate, relationships and improved student academic outcomes as shown by a 10% increase in positive responses on the Family Engagement survey.

Evaluation Data Sources: Climate Surveys
School Feedback via Email
Improved student academic outcomes

Goal 4: PfISD will improve low performing schools.

Performance Objective 4: By Spring 2026, to ensure Coordinated School Health, 100% of eligible students will participate in the FitnessGram assessment.

Evaluation Data Sources: Fitnessgram results

Goal 4: PfISD will improve low performing schools.

Performance Objective 5: Windermere Elementary's 2026 A-F campus accountability ratings for overall and each domain will improve from the prior year as follows:

- Overall Rating will improve from B to A
- Domain 1 Rating will improve from C to B or above
- Domain 2 Rating will improve from B to A
- Domain 3 Rating will improve from B to A

Evaluation Data Sources: Accountability reports

Policies, Procedures, and Requirements

The following policies, procedures, and requirements are addressed in the District Improvement Plan. District addressed Policies, Procedures, and Requirements will print with the CIP for Board Approval:

Title	Person Responsible	Review Date	Addressed By	Addressed On
Bullying Prevention	Executive Director of Student Affairs	9/29/2025	Karen Shah	9/29/2025
Child Abuse and Neglect	Chief Human Resources Officer	9/29/2025	Karen Shah	9/29/2025
Coordinated Health Program	Chief Academic & Innovation Officer	9/29/2025	Karen Shah	9/29/2025
Dating Violence Policy	Executive Director of Student Affairs	9/29/2025	Karen Shah	9/29/2025
Decision-Making and Planning Policy Evaluation	Chief Academic & Innovation Officer	9/29/2025	Karen Shah	9/29/2025
Disciplinary Alternative Education Program (DAEP)	Executive Director of Student Affairs	9/29/2025	Karen Shah	9/29/2025
Dropout Prevention	Executive Director of Student Affairs, Assistant Superintendent	9/29/2025	Karen Shah	9/29/2025
Dyslexia Treatment Program	Executive Director of Special Education	9/29/2025	Karen Shah	9/29/2025
Title I, Part C Migrant	Director of Federal & State Programs	9/29/2025	Karen Shah	9/29/2025
Pregnancy Related Services	Executive Director of Health, Safety, and Emergency Management	9/29/2025	Karen Shah	9/29/2025
Post-Secondary Preparedness	Chief Academic & Innovation Officer	9/29/2025	Karen Shah	9/29/2025
Recruiting Teachers and Paraprofessionals	Chief Human Resources Officer	9/29/2025	Karen Shah	9/29/2025
Student Welfare: Crisis Intervention Programs and Training	Executive Director of Health, Safety, Emergency, and Crisis Management	9/29/2025	Karen Shah	9/29/2025
