

Sweet Silent Night

All is calm, all is bright
On this sweet silent night
Stars above shine their light
On this sweet silent night,
On this sweet silent night

And the snow comes down
Floating to the ground
And without a sight the world turns white!

Silent night

Holy night

On the white winter snow
Heavenly sparks cast their glow
Sparkling jewels twinkling bright
On this sweet silent night
On this sweet silent night

And the snow comes down
Floating to the ground
And without a sight the world turns white!

Hearts take hold, dreams take flight
On this sweet silent night
On this sweet silent night!
