2025-2026 Student Fees
Herron High School and Herron-Riverside High School

With the passage of HEA 1001 last year by the Indiana legislature, charging parents for "curricular materials" is prohibited. As a result, Herron Classical Schools will not be charging parents for textbooks or workbooks adopted for specific course or grade-level instruction. The district will continue to collect fees for classroom materials, which are labeled as the student supply fee. Technology fees are also now covered by the state, with the exception of a lost or damaged device fee.
