

December 2025

Dear Parents/Guardians of a Sophomore,

The future is waiting, and it starts at Auburn Career Center!

We're thrilled to share that Auburn Career Center is experiencing *record enrollment*. The past two years have been the highest in our school's history! With over 21 career technical programs serving more than 900 high school students, there has never been a better time for your child to join Auburn and discover the pathway that's right for them.

At Auburn, students don't just learn — they build their future. Within six months of graduation, an incredible 98% of Auburn graduates are either employed, enrolled in college, or enlisted in the military. Even more impressive, over 50% continue on to college after earning valuable credentials and college credit — often for free!

Did you know that almost *all* of Auburn's programs now include state-recognized college credits directly embedded into their courses? Better still, those courses qualify for weighted credit, helping students maximize their GPA for college entrance! That means your student can start earning college credit before they even graduate high school!

When your child chooses Auburn, they can:

- Earn industry-recognized certifications that employers value,
- Earn FREE college credit,
- Gain hands-on, real-world experience in high-tech labs,
- Explore internships and shadowing opportunities — many of them paid!
- Build confidence and career direction through personalized guidance,
- Gain a competitive advantage on college and job applications.

Whether your child plans to go to college, start a career, or serve our country, Auburn provides the experience, credentials, and connections to make it happen.

We invite your student to discover Auburn during our Sophomore Visit Day on **Wednesday, January 21, 2026** — a fun, hands-on day filled with opportunities to explore Auburn's programs and meet our instructors. Families are also encouraged to attend our **Community Open House** that evening from 5:30–7:30 p.m. (Backup Calamity date: Thursday, January 29, 2026).

Come see why students from across the region are choosing Auburn as the launchpad for their future, because at Auburn Career Center, your future starts now!

If you have any questions or would like additional information, please contact our Enrollment Specialist, Mrs. Barb Gordon, at 440-357-7542 ext. 8110.

Thank you,

Dr. Joe Glavan
Superintendent
Auburn Career Center
