Title

School Student Performance Recognition

Requested Action

School Board Recognition: School Student Performance

Summary Explanation and Background

The Cherokee County School Board recognizes the amazing student performance achieved by our schools on the College and Career Ready Performance Index!

The CCRPI state accountability system measures student achievement and learning growth using Georgia Milestones Assessment System test scores, student course enrollment, and high school graduation rates, which are calculated into four category scores. The Governor's Office of Student Achievement then uses these scores to determine a single accountability score for schools and for school districts.

Our students' incredible performance is a testament to their dedication and the talent of our teachers, support staff and school administrators to further extend and elevate our district's history of academic success!

Financial Impact
