*Ice Cream Recipe:

1 tablespoon sugar
½ cup milk, cream, or half and half
¼ teaspoon vanilla extract (or other flavoring)
6 tablespoons salt
Enough ice to fill the gallon-sized bag halfway
1 gallon-sized Ziploc bag
1 pint-sized Ziploc bag
Ordinary table salt will work, but salt that has larger crystals, such as kosher salt or rock salt, will work much better. Mix the salt around in the ice and set aside. Make sure the pint bag gets buried in the ice. Seal the gallon bag. Shake the bags vigorously for five minutes. You might want to use a towel to hold them, since they will be very cold and slippery from condensation.

*Science Experiment Supplies:

- Half a lemon (or lemon juice)
- Water
- Spoon
- Bowl
- Cotton bud
- White paper
- Lamp or other light bulb

*Science Experiment:

Instructions:

1. Squeeze some lemon juice into the bowl and add a few drops of water.
2. Mix the water and lemon juice with the spoon.
3. Dip the cotton bud into the mixture and write a message onto the white paper.
4. Wait for the juice to dry so it becomes completely invisible.
5. When you are ready to read your secret message or show it to someone else, heat the paper by holding it close to a light bulb.
