

SUBJECT LEARNING JOURNEY

Our intent is....

Art and design (including photography), provides and inspires personal expression, cultural understanding, creative and practical responses, promoting imaginative risk taking to provide solutions to our material, emotional, social and virtual worlds. Our Art and design education will engage, inspire and challenge pupils, equipping them with the knowledge and skills to participate in, experiment with, invent and create their own works of art, craft and design, whilst raising aspirations and enabling a better future.

What is the impact of studying our subject?

Students learn that there are many different ways of making Art, while skills are built year on year, giving them increased confidence and self esteem.

Increasing student confidence culminates in a readiness to work independently and take risks with an open mind.

Students can see possibilities for their future in a local and wider world.
