Mobile Device Policy

The Board of School Trustees recognize (Policy 5136) that student personal technological devices, including cell phones, earbuds, headphones, tablets, smartwatches, iPods, or similar electronic devices, could enhance the student learning experience in classrooms; however, those devices could also hinder student learning and instruction quality if they are improperly used.

General Procedures:

- Students may use personal mobile devices before school, during lunch, during passing periods, and after school.
- Personal mobile devices should not be used during class time.
- Inappropriate use of student mobile devices will result in progressive discipline and eventual confiscation.
- Mobile devices should not be used while in the hallways, such as when going to the bathroom. Violations will result in the student being escorted to the Zone office and possible confiscation of the device according to the progressive discipline policy.

Beginning of Each Instructional Period:

- Students will place their personal cell phones, headphones, and earbuds on silent in phone pockets.
- Teachers will remind students that instruction is beginning and that all devices must be in phone pockets as a warning.
- Students will keep their pockets visible to the teacher.

Non-compliance:

- If a student does not place a cell phone in the pocket, it will be assumed that the student does not have a cell phone with them. Observing a cell phone later in the class period will result in the student being sent to the Zone office, and progressive discipline will be enforced.
