SECTION 2

LESSON PLANS AND CONTENT AREAS

KDE REQUIREMENTS:

Districts are required to maintain lesson plans and accompanying student work samples for each grade level. Districts must hold individual records for each grade K-12 and encompass various content areas (Math, Language/Arts, Science, Social Studies, districts' electives) for each NTI day utilized during a school year. Please note that grade books, roster completion sheets, and summary grade pages do not qualify as acceptable student work samples or lesson plans.

Monitoring of NTI Programs

KDE will choose a sampling of district NTI programs to monitor each year. NTI documentation and student samples will be reviewed during the monitoring visit.

What does KDE mean by “Lesson Plan”?

1. The sample used for evidence must show:

A: The prompt or something stating what their task/assignment was for the day.

B. The Learning Target and/or Standard

Elaborate lesson plans are not needed.

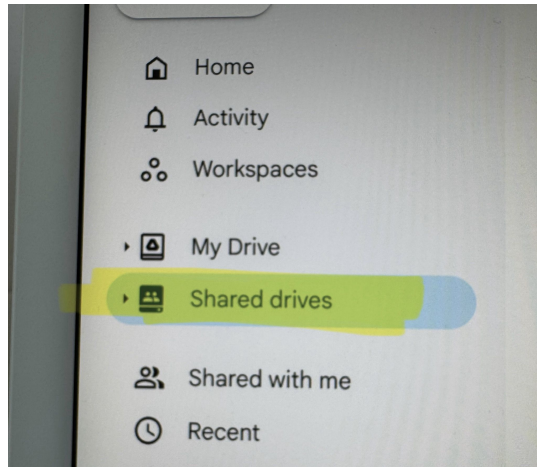

SECTION 3

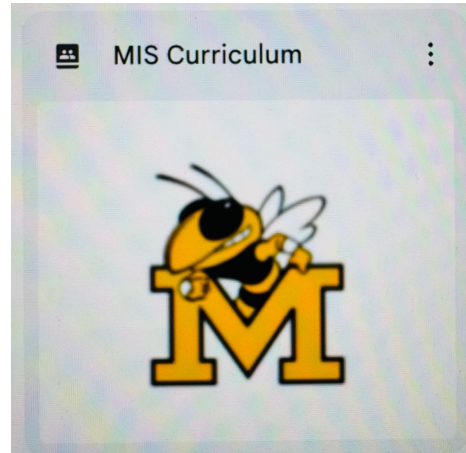

LOCATING THE EVIDENCE FOLDERS

All NTI folders are housed in the shared Drive titled “*MIS Curriculum Drive*”
