"Preparing our Students for the Future"

November 18, 2025

Notice

All Franklin County Schools have been inspected by an EPA-approved asbestos inspector or local asbestos designated coordinator. We maintain a management plan file for each local school in the central office as required under AHERA regulations. Individual school plan files are also available at each local school. The plan file is available for any parent to view.

Most of our asbestos containing materials are in the form of floor tiles and are non-friable. These materials are well maintained. The law requires that we make this notice to all employees, students and staff annually.

We are glad to provide a healthy atmosphere for students and staff.
