- <u>Slide deck</u>

Resources for ages 9-12

- <u>Lesson plan</u>
- <u>Worksheet</u>
- <u>Slide deck</u>

Resources for ages 13-18

- <u>Lesson plan</u>
- <u>Worksheet</u>
- <u>Slide deck</u>

Resources for educator PL

- <u>Professional learning activity</u>
- <u>Slide deck</u>

Content area connections

While all lesson plans are written as a general overview of the activity, each lesson contains suggestions for curricular connections for specific content areas.

Technical Specifications

Educators can facilitate the student activity with one internet-enabled device. Spaces are browser-based and work on all internet-enabled devices. Ideally, students could work in pairs or small groups on their own devices for this activity.

Need support?

Check out our Help Center for more FAQs and support articles for our Hour of AI resources at <u>help.schoolai.com</u>.
You can also get real-time support in app by clicking the question mark button in the navigation bar of any <u>app.schoolai.com</u> page.
