Elementary E-learning Information for Staff 2025-2026

Definition	Learn-from-home days for students and teachers due to inclement weather, as described in the Student Rights and Responsibilities Handbook. **Students** join live sessions with their teachers in the morning and complete work at home throughout the day. **Teachers** support student learning through live instruction as well as asynchronous work.
Schedule	• 7:30–8:30 Teacher prep time • 8:30–9:00 Morning Meeting with students on Zoom • 9:05–9:45 Math or Literacy with students on Zoom • 9:50–10:30 Literacy or Math with students on Zoom • 10:30–11:00 Lunch • 11:00–3:15 Available for student support via email, Seesaw, or Zoom
E-learning	PreK students complete asynchronous work provided prior to the E-learning day. K students join Morning Meeting on Zoom and spend the remainder of the day completing asynchronous work provided prior to the E-learning day. Grades 1–5 students join Morning Meeting, Math, and Literacy lessons on Zoom and spend the remainder of the day completing asynchronous work on Seesaw.
Preparing for E-learning	• PreK/K teachers copy materials for asynchronous work and distribute to families. • Share your Zoom link and assignments with students via Seesaw and make sure they know how to use Zoom. There is a 40-minute limit on Zoom meetings; students will need to sign out between lessons. • Assign work on Seesaw prior to the Flexible Learning Day so students can practice using the features in person before needing to do them at home. • If you need support, reach out to your peer reviewer or Patrick Shipway.
