OBJECTION TO RELEASE OF DIRECTORY INFORMATION

Complete only if you wish to restrict the disclosure of directory information

Directory information is personally identifiable information in an education record which generally would not be considered harmful or an invasion of privacy if released. Examples include student name; parent/guardian name, email and telephone number; student email; and photograph. This form is valid from this day forward for the present school year only.

OPTIONS - NO RESTRICTION

The district may release directory information. You do not need to complete this form.

LIMITED RESTRICTION

The district MAY RELEASE directory information, EXCEPT (check all that apply):

☐ **No School Directory / School-Related Organizations – I do not** want my name, my student's name or any family contact information released to school-related organizations such as the PTA and booster clubs. I understand that this means my student will not be included in a school directory.

☐ **No Yearbook / Class Photos Use** – I **do not** want my student's photograph or name to appear in the yearbook or in official class photos.

No Publicity – do not want my student's photograph, video or name to be used on the school, or district website, social media, or in any district publication produced by and made available to the public by the district. To the extent that the district controls access by news media reporting on school programs and topics during school hours, I do not want the news media to identify my student by name, interview, photograph, or video.

COMPLETE RESTRICTION

No Information the district **may not release** any directory information about my student. I understand that this means that information about and pictures of my student will not appear in any school publications that are made public such as yearbooks, official class photos, athletics, music, drama or graduation programs, and honor lists. It also means that my name and contact information, and my student's name, will not be provided to the school PTO or other parent/guardian group, which may publish a student directory. It also means that my student's image and voice will not appear on the school website, a teacher website or in any publication produced by and made available to the public by the district.

This is the most restrictive option. Selecting this option restricts the school and district from releasing any personally identifiable directory information about a student, including basic details like their name or photo. DO NOT select this option if you wish your student to be in the yearbook or class photo, identified in a music or drama program or listed in a team roster. Instead, check one or more of the Limited Opt Out options above.

Please sign and return to the school office only if you have read and understand the options above.
