

POST FALLS
SCHOOL DISTRICT #273

Levy Dollars at Work

This year, the district is adding new flashing beacons at the entrance of every school to help visitors understand when a lockdown drill is taking place.

During these quarterly safety drills, no one will answer the door because teachers are busy following safety steps:

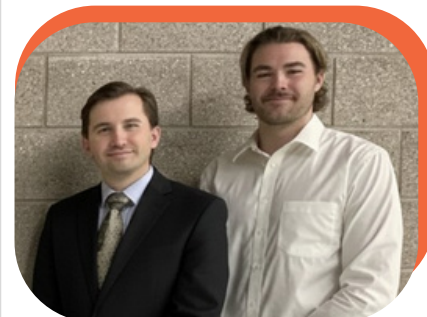

- checking the hallway for students,
- locking and blocking their doors,
- moving the class out of sight,
- staying quiet, and
- listening for updates.

The beacons will flash during a drill to alert anyone outside that the school is practicing a lockdown.

Installation will be finished by Christmas break, and instructional signs will be posted near the front doors of all buildings to help guide visitors.

**WHEN THE
BLUE LIGHT
IS FLASHING,
THE SCHOOL IS IN A
LOCKDOWN OR DRILL.**

**PLEASE RETURN
TO YOUR CAR
UNTIL THE
ALL-CLEAR IS GIVEN.**

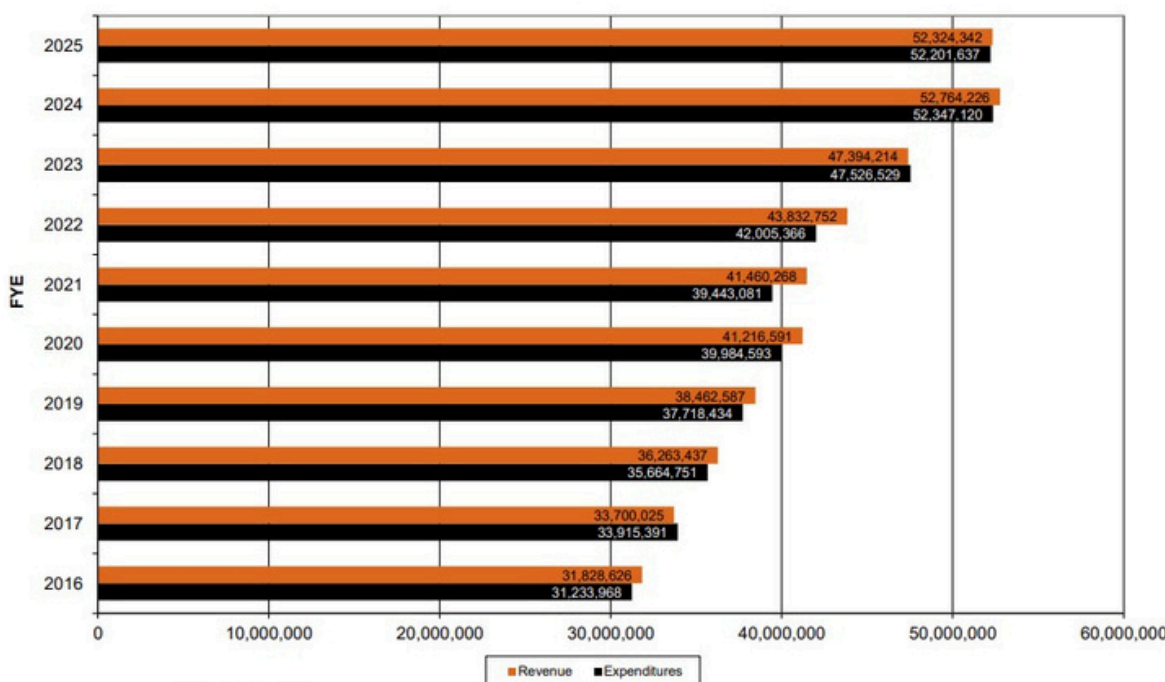

We would like to extend our heartfelt gratitude to Board Members **Logan Creighton** (Zone 4) and **Jake Dawson** (Zone 5) for their four years of dedicated service.

Financial Audit

- The annual audit is conducted by an independent firm. It presents a clear picture of how funds were appropriately managed for the year ending June 30, 2025.
- Last year revenues exceeded expenditures by \$122,705
- When revenues exceed expenses, a fund balance is created for future unexpected needs.
- The Government Finance Officers Association recommends a fund balance equal to two months of expenditures, and the district is currently just below this recommendation.

POST FALLS SCHOOL DISTRICT General Fund Revenues/Expenditures

We are committed to being transparent with all district resources. Use this QR code to access the full audit report.

*** Our parent newsletter is getting a fresh new look! It will now be a simple one-page monthly update featuring key district highlights, making it easier than ever for you to stay informed.*
