To All vendors: Addendum #1

### Informal Request for Proposals

#### Design Build Services for Stadium Scoreboard & Sound System Improvements

Using the Informal (RFP) method of procurement, Calallen Independent School District (the District) is soliciting proposals from qualified vendors for the construction of a new High School Stadium Scoreboard.

**This addendum serves as a notice of change in the scope of the requested services.**

Due to the location and duration of the scoreboard replacement project which is to take place on January 5<sup>th</sup> 2026, the district is requesting for the delivery and placement of a temporary moveable scoreboard which may be used during the soccer season.

Due to the renovation of the press box, all spectators will be utilizing the visitors side of the stadium. The scoreboard will be movable, but of a sufficient size which will meet all of the UIL requirements for soccer play. In addition, the vendor will ensure the scoreboard is properly anchored to prevent wind damage.

Upon completion of the soccer season, the vendor will be notified to retrieve the unit. Please provide the power needs of the unit. The district will provide the electrical required. This additional cost must be included as part of the proposal.

As a reminder, please submit all proposals through a Purchasing Cooperative, and indicate the contract number on the proposal.

The due date and time remains for Thursday, 12 noon (CST), May 22, 2025 **at the District's administrative offices located at 4205 Wildcat Dr., Corpus Christi, Texas 78410.**

The District will accept mailed, hand delivered, or emailed responses to this Informal RFP.
