

Elementary
Art Education

Art
The Owen J. Roberts elementary art program, taught by certified art teachers, aligns with the PA Standards.

- Students demonstrate growth and development of their fine motor skills handling a variety of tools and diverse media.
- Through observation and practice of art and art making, students gain understanding and appreciation of different cultures and traditions around the world.
- As students move through their own creative process they will learn how to resolve problems through creative thinking, communicate ideas, organize materials, understand and apply terminology, while gaining appreciation of various forms of art.
- Interpretation of the subtleties of visual culture is paramount to many aspects of our lives.
- Students will begin decoding images and develop communication, collaboration and art criticism skills.
- K-6th grade students will enjoy real world manipulation of materials and gain confidence in their artistic abilities in the elementary art classrooms of OJR.
