**(bb)** the methodology by which the State differentiates all such schools. Total points for each component are determined by multiplying the percentage of evaluated indicators met by the corresponding weight and rounding to one decimal place. The Closing the Gaps domain score is the sum of the total points rounded to the nearest whole number and is further used to differentiate all public schools. See the accountability manual for details: [Chapter 4-2025 Closing the Gaps Domain](#)

**(cc)** the methodology by which the State differentiates a school as consistently underperforming for any subgroup of students. Texas uses the Closing the Gaps domain to identify campuses that have consistently under-performing student groups. A student group that misses the targets in at least the same three indicators, for three consecutive years, is considered 'consistently underperforming'. Data from 2023, 2024, and 2025 are considered consecutive years for 2025 Targeted Support and Improvement (TSI) identification. Any campus not identified for Comprehensive Support and Improvement (CSI) that has at least one consistently underperforming student group is identified for TSI. TSI identifies both Title I and non-Title I campuses. Campuses are evaluated annually for TSI identification. See the accountability manual for details: [Chapter 10-2025 Identification of Schools for Improvement](#)

**(dd)** the methodology by which the State identifies a school for comprehensive support and improvement. Texas annually ranks all Title I campuses based on Closing the Gaps scaled scores. First, Texas determines the bottom five percent of Closing the Gaps outcomes by rank ordering the scaled scores of Title I campuses by school type - elementary, middle, high school/K-12, and alternative education accountability. Texas then determines which campuses fell in the bottom five percent for each school type. Title I campuses that rank in their school type's bottom five percent are identified for CSI. Additionally, if any Title I or non-Title I campus does not attain a 66.7 percent six-year federal graduation rate for all students group, the campus is identified for CSI. Any Title I campus identified for Additional Targeted Support (ATS) for three consecutive years will be identified for CSI the following school year.

**Part (i)(V)** the number and names of all public schools in the State identified by the State for comprehensive support and improvement or implementing targeted support and improvement plans. Campuses Identified for Support under the Every Student Succeeds Act (ESSA) for the 2024-2025 school year: [Comprehensive Support and Improvement Schools](#), [Targeted Support and Improvement Schools](#) and [Additional Targeted Support Schools](#).

**Part (i)(VI)** the exit criteria established by the State, including the length of years established. Campuses that do not rank in their school type's bottom five percent of the Closing the Gaps domain for two consecutive years and have Closing the Gaps domain scaled score by the end of the second year that is higher than when originally identified are considered as having successfully exited. Campuses previously identified as CSI based solely on a graduation rate must have a six-year federal graduation rate of at least 66.7 percent for two consecutive years to exit CSI status. To exit ATS, the Closing the Gaps score for the consistently underperforming student group must surpass the score used in the year of ATS identification to identify the lowest performing five percent of each school type. A campus identified for TSI because of one consistently underperforming subgroup will exit the TSI status if the subgroup becomes not consistently underperforming subgroup. Consistently underperforming is defined as missing the targets in at least the same three indicators for three consecutive years.
