SUMMER ACTIVITIES

The Board recognizes that student learning is an ongoing process and that it is important for students to engage in learning activities even when not attending school. Therefore, the Board encourages administration to have a plan for summer activities that support student learning. Such activities may include a summer book reading list, attending an education-themed summer camp, engaging in extended learning opportunities and other career readiness activities, or other activities that support student learning.

Whether or not summer activities are organized by the District, in appropriate circumstances, students may achieve identified district and graduation competencies toward high school credit as provided in Board policy IK. Students (along with their parent/guardian) wishing to avail themselves of the opportunity to achieve competencies in non-district summer activities should consult with the Alternative Education Administrator to ensure alignment of the activity to the competency(ies).
