

# Mathematics Content Knowledge Professional Learning Series

Hosted by Marin COE and San Rafael City Schools *in partnership with Curriculum Associates*

Deepen your understanding of core mathematical concepts to support students in connecting the big ideas of mathematics across grade levels.

Using research-based strategies, models, and mathematical progressions, educators will dig into the meaning and power of mathematical ideas as they craft and critique explanations, push their thinking, and explore alternative perspectives. ***Dinner will be provided. Reserve your seat today!***

**Wednesday, February 4**

**4:30 - 6:30 @ Laurel Dell ES  
(Library)**

***Understanding Multiplicative Structures and  
Properties***

***Multi-Digit Multiplication and Division***
