

Stratton SAC Meeting Minutes
Wed. 29 October 2025 5:00

We had three people attend. Principal, Chair, 5th Grade GMP parent.

In the Principal's Report there was information and discussion with the three of us.

- Field Trips are no cost to students, getting drivers is the challenge. Its part of a new plan.
- Planning for Site Based Budgeting is coming along well. Mr Phelan has had experience with this type of budgeting
- GMP update: uses of data show what achievement gaps a student or class has and can then be addressed by the teacher. The traditional teaching is doing well in those classes.
- The data from testing shows what needs are in teaching and learning. The aim this year is to have growth school wide. Tech info on students is helpful.
- Stratton use Core Knowledge curriculum, (not Common Core)
- Mr. Moe asked for a Writing Sample from each grade to show what the students are doing. It will not have names but just a sample of what is being taught at this time.
- The PTA dance for Halloween went well and was an enjoyable event. It was a huge undertaking with many helpers.
- Some of us have attended the DAC meetings at Tesla. The last one was a general one for all schools. An upcoming one is only for Middle School over at North.
- The school has ILT reps from each dept. To report school status to the Principal. ILT = Instructional Leadership Team
- BLT Building Leadership is another committee to help the Principal keep in touch with other members of the school staff.
- We discussed the Autism program and the ways of instruction with inclusion and tasks outside the regular classroom setting as needed.
- Mr. Moe asked if the school could do a general survey "By the Numbers" which is done in a small way on the web page. We will try to gather some interesting facts: How many doors" How many phones, computers? How many teachers? Lunches and breakfast served daily, Etc.
- Mr Phelan shared that he feels welcome and the staff is coming together under his leadership in a positive way. He shared the new teachers to the school and how they have quickly adjusted to the school.

We Adjourned at 5:56
