

Facilities**RELATIONS WITH THE CITY/COUNTY REGARDING LAND DEVELOPMENT**

The cities of Westminster (2016), Huntington Beach (2017) and Garden Grove (2008) and Midway City (Unincorporated Orange County – 2015) have released General Plans with provisions to protect and support partnership with local school districts when planning new development and city growth projects.

The Board recognizes that cooperation between the district and partnering cities is essential to ensure careful and timely planning. To help the partnering cities determine whether development is consistent with their most recently adopted general plan, the Superintendent or designee shall provide partnering cities, upon advance written request, with information about current and projected enrollment and school capacity. When development projects, zoning changes or general plan changes are proposed, the Superintendent or designee shall represent the district before the city.
