

YOUNG REMBRANDTS

We're an after-school enrichment program that meets weekly at your child's elementary school. We serve kids ages 5k – 5th grade, and we love to draw! Young Rembrandts' unique curriculum engages both sides of your child's brain so everyone participating can learn and be successful. The Young Rembrandts Method and curriculum offer a form of brain-based learning that is crucial to the complete education and full development of modern minds. With Young Rembrandts, children gain the following skills:

- Fine motor skills (handwriting)
- Visual-spatial organization skills
- Persistence and follow through
- Increased self-esteem
- Attention to detail and focus
- Strong, diverse vocabulary
- Patience, discipline and manners
- Durable self-confidence

All New Lessons Every Session

Join our Art Club - Class will be held in your school's Art Room
