May 3, 2016

Ms. Lisa Pacheco
Training Specialist
East Cambridge Savings Bank
344 Cambridge Street
Cambridge, MA 02141

Dear Ms. Pacheco,

I am interested in applying for the summer design job at East Cambridge Savings Bank. I've been working on my design skills for five years. Over the past three years, I have attended four semesters of Creative Design at CRLS. Prior to that, I practiced my skills independently. As part of my Creative Design class, I participated in many "live works contests." This allowed me to work with clients and develop my design to best meet their needs.

In the past three years I've become skilled at several computer design programs, such as Adobe Illustrator, InDesign, and Photoshop. My skills are well suited for creating posters, brochures, and calendars for all ages. I am particularly interested in utilizing these skills for creating artwork that will help younger children save money.

I am hardworking, responsible, independent, and a good listener. I'm also open to critiques and welcome to make changes to suit the client's needs. I have many experiences working with both kids and adults, so I naturally know how to work with all age ranges. I am a hard worker and I know I'll be able to take on the challenges thrown at me.

I've been told I'm respectful, and fun to be around, but I also know when it's time to be serious and get work done. I would love an opportunity to come for an interview for a graphic design position. I believe I'm a great candidate because of my personal traits and my love for design.

Thank you for your consideration. I'm looking forward to meeting you.

Sincerely,

Billy Nicolas

ECSB Brochure

+ Keep all security programs regularly updated

+ Connect to secure wi-fi sources when online banking

+ Be cautious of information you put on social media

+ Be mindful of the information on your mobile device

+ Small businesses should train their employees on cyber security

+ Use internet safety features

+ Use more than one secure password

+ Don't give out your personal information

+ Teach others about cyber security

+ Ignore unknown emails or links

● Install anti-virus software to protect against malicious software.

● Cybercriminals are good at creating fake emails that look legit.

● Wifi networks / computers at libraries or hotels can be risky if they don't have up-to-date security.

● A safe strategy is to ignore unsolicited requests for information.

● Create "strong" passwords that are hard to guess and change regularly.

● Criminals look for information such as someone's date of birth and through social networks which can help them guess passwords.

Don't leave your mobile device unattended. If it's stolen or lost, call your carrier to deactivate it.

Monday-Friday: 9 AM - 6 PM
Saturday: 8:30 AM - 6 PM
