Ms. Lisa Pacheco
Training Specialist
East Cambridge Savings Bank
344 Cambridge Street
Cambridge, MA 02140

Dear Ms. Pacheco,

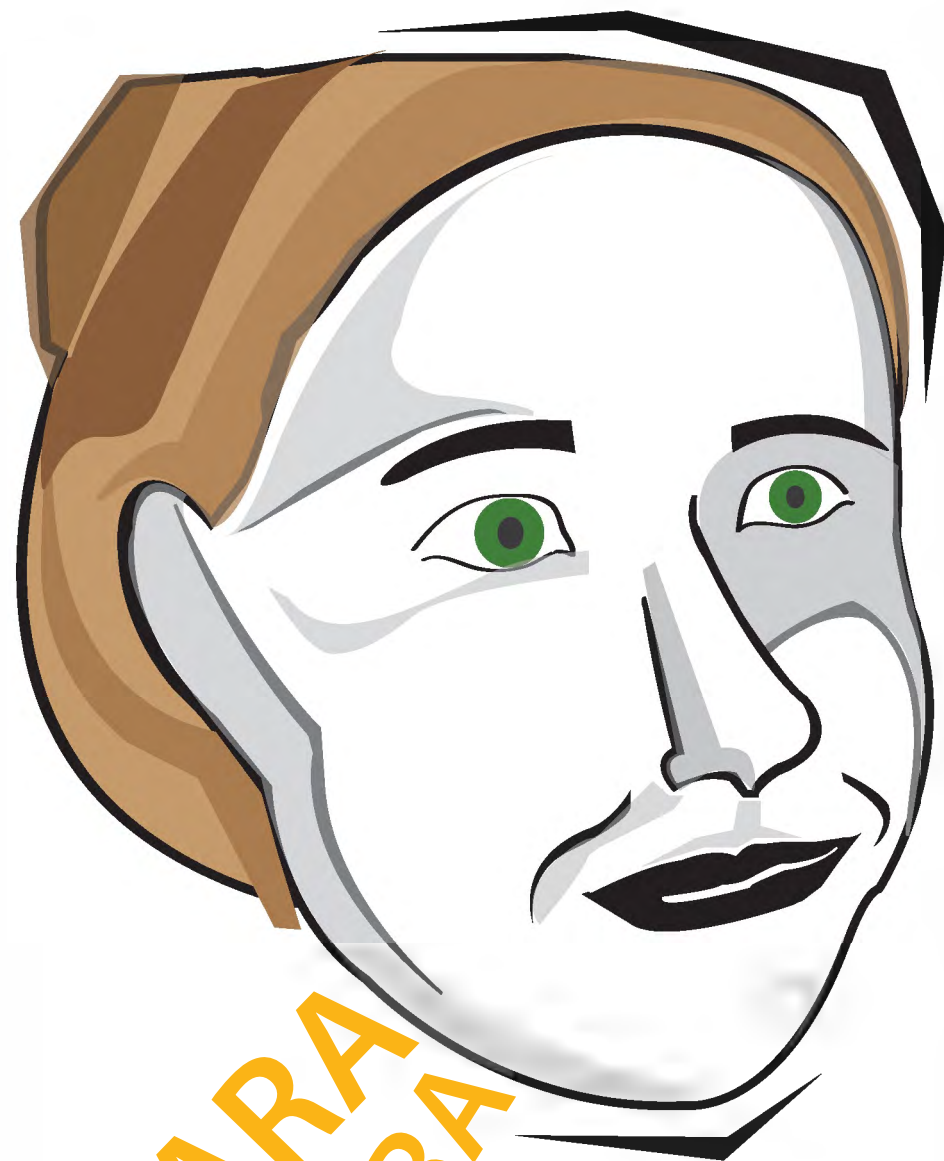

Recently, I learned about your summer intern program for students who are interested in continuing their design work over the summer. I believe that I would be a great candidate a great candidate for the job. I am a sophomore in high school, and I have been studying design for the past two years. I am eager to continue to learn, improve and to gain real world experience. I am a hard worker and have an open mind. I have a lot of different types of design experience too.

From what on have learned, I believe that I would be a good fit for this job based on the type of design work that I have done. During my time in the Creative Design I have worked for clients and completed assignments and projects that met their needs and expectations. Among these projects was the live work for the East Cambridge Saving Bank placemat. This project allowed me to gain an understanding of what your company might want form a design intern. I believe that I could do meet your expectations and contribute to your workplace with my objective perspective.

I am very interested in this opportunity and I would appreciate the opportunity to interview for the position and learn more about you and your organization. I love being part of groups and being a team player. If you would need any additional information you can reach me on my phone at anytime. Thank you for you're time and consideration.

Sincerely,
Lara
