Prescription drug manufacturers provide coupon programs for certain pharmaceuticals. Your benefit plan requires you to enroll in BCBSM-approved coupon programs when available for select medications. This benefit may lower the cost sharing typically required for these drugs. Your out-of-pocket expense for these drugs will be no more than your cost sharing. When a coupon is used, only the amount you paid for the prescription will apply towards your annual out-of-pocket maximum. Note - Adjustments may be required to accurately reflect your annual out-of-pocket maximum with your true out-of-pocket costs.

**Features of your prescription drug plan**

Prior authorization/step therapy

A process that requires a physician to obtain approval from BCBSM **before** select prescription drugs (drugs identified by BCBSM as requiring prior authorization) will be covered. **Step Therapy**, an initial step in the Prior Authorization process, applies criteria to select drugs to determine if a less costly prescription drug may be used for the same drug therapy. This also applies to mail order drugs. Claims that do not meet Step Therapy criteria require prior authorization. Details about which drugs require Prior Authorization or Step Therapy are available online at [bcbsm.com/pharmacy](http://bcbsm.com/pharmacy).

Mandatory maximum allowable cost drugs

If your prescription is filled by a network pharmacy, and the pharmacist fills it with a brand-name drug for which a generic equivalent is available, you **MUST** pay the **difference** in cost between the BCBSM approved amount for the brand-name drug dispensed and the maximum allowable cost for the generic drug **plus** your applicable copay regardless of whether you or your physician requests the brand name drug. **Exception:** If your physician requests and receives authorization for a non-preferred brand-name drug with a generic equivalent from BCBSM and writes "Dispense as Written" or "DAW" on the prescription order, you pay only your applicable copay. **Note:** This MAC difference will not be applied toward your annual in-network deductible, nor your annual coinsurance/copay maximum.
