

➤ Internet Traffic Light ➤

by Wren Brennan

We go online to find
new things to do and see.
The internet traffic light
shows where we need to be.

Green means GO!

To sites we trust.

Yellow means SLOW!

Being safe is a must.

Red means STOP.

Ask if it's OK.

Trust your gut.

To go the right way.

PRIVACY & SECURITY

We care about
everyone's privacy.
