Course Recommendation Override Form

Parent/Guardian Preference Form for Placement in Non-recommended Courses

Course placements are based on individual student achievement, test scores, and other academic data. These placements are based on research; which support specific course selections to provide students with the most rigorous academic program. Parents/Guardians who request to change these placement decisions must meet with a school counselor/designee to be aware that:

- Students choosing a more rigorous course may need additional support (e.g., tutoring, extra study time, exam reviews, study groups, parental support, etc.).
- All high school courses, including those taken in middle school and/or "forgiven," will remain on the permanent transcript and may be used by colleges, scholarships, or other institutions based upon their respective policies.
- Choosing less rigorous courses may impact future high school course choices.
- Choosing less rigorous courses may negatively impact a student's post-secondary choices (i.e. may not be as competitive for college admission).
- Choosing less rigorous courses may limit the student's chance of receiving a Bright Futures Scholarship and other college funding support.
- Each student enrolled in an AP course must make a committed effort to pass the AP exam.
- If a student violates AP guidelines with regard to examination instructions and/or procedures, the student will be dismissed from the exam and the fee will be reported as an obligation.
- If a student does not take the AP exam for the class in which he/she is enrolled, the course grades will be calculated based on five quality points, rather than six for class ranking; and the fee for the examination will be reported as an obligation.
