

POLICY: School Chromebook and Internet Use Policy

Approved by Governing Council on: May 14, 2025

At Siembra Leadership High School, we provide technology resources to enhance the educational experience of our students. This policy outlines the expectations for responsible use of school-issued Chromebooks and internet access.

Acceptable Use Guidelines

Students at Siembra Leadership High School school-provided technology resources exclusively for educational purposes, including:

- Completing and submitting academic assignments
- Conducting research for school projects and coursework
- Accessing approved educational platforms, applications, and resources
- Communicating with teachers and classmates regarding academic matters
- Participating in school-sanctioned online activities and programs

Prohibited Activities

The following activities are strictly prohibited on Siembra Leadership High School devices and networks:

- Personal entertainment (gaming, social media, streaming videos)
- Non-educational browsing
- Personal communications unrelated to school activities
- Installing unauthorized applications or extensions
- Accessing inappropriate content
- Circumventing network security measures
- Any activity that violates the Siembra Leadership High School Code of Conduct

Monitoring and Enforcement

- All activity on school-issued devices and networks may be monitored for compliance
- Teachers and administrators reserve the right to inspect Chromebooks at any time
- Violation reports will be documented and addressed according to the procedures below

Consequences for Policy Violations

- Verbal warning
- Documentation of the incident
- Reminder of policy expectations

Second Violation

- Required family meeting with grade-level administrator
- Review of this policy with student and family members
- Possible temporary restrictions on Chromebook privileges

Third or Serious Violation

- Mandatory family meeting with school administration
- Potential confiscation of the Chromebook for a designated period
- Implementation of a technology use improvement plan
- Additional consequences as determined by administration
