

EIHS Scheduling – Frequently Asked Questions

When will I meet with my counselor?

Individual scheduling appointments will be taking place during Social Studies classes as follows:

- ★ Juniors: February 3-7
- ★ Sophomores: February 10-14
- ★ Freshmen: February 24-28

Should my parent/guardian come with me when I meet with my counselor?

Course request meetings during Social Studies classes are for students only. Your parent/guardian is welcome to contact your counselor at any time to discuss questions or concerns.

Am I going to get **all** of the courses that I request?

Every effort is made to accommodate requests, but there are no guarantees, as many factors affect the master schedule.

My friend met with their counselor earlier than I did. Does this mean they will get their requests, and I won't?

No. The date that you see your counselor has no impact on whether you will be placed in your chosen courses. The master schedule for the building is not created until **after** all students have met with their counselors.

Why am I asked to choose multiple electives, if I don't have room for all of them?

Sometimes your first choice doesn't work in your schedule; we always want to have other choices to take its place. The Curriculum Guide (online) and Elective sheet show the anticipated course offerings.

Can I make changes to my selections after I've met with my counselor?

Yes, but they must be done by **March 20, 2025**. After that date, we are not able to make changes.

Am I required to have a lunch period?

You may request to have no lunch, or lunch every other day. Parent/guardian permission is required. Please note that eating in classrooms is prohibited per Board policy.

Can I request to have (or not to have) a specific teacher?

No, unless there are extenuating circumstances from past personal experience.

Can I request to have a class or lunch during a specific period?

This can only be done with medical documentation stating the reason for the request.

When will I receive my schedule?

Schedules are finalized during the summer and posted to the Portal at the end of August.
