

Middle School Drone Club:

Let Your Coding Take Flight!

Whether you're a beginner or already have some experience, this club is an exciting opportunity for your coding to take flight.

We'll start with the basics of flying, and then move on to more advanced concepts as we use code to make our drones take off, land, and perform cool tricks.

You'll get hands-on experience and work with your friends to complete challenges. Come ready to learn, create, and have a blast!

**Join us every week at lunch in
The Center to learn how to code
and fly Robolink CoDrones.**
