Contestants Shine in SkillsUSA Competition

By: ***Rachel Berryman***
Tradesman Staff Writer

For the 21st consecutive year, SkillsUSA had many outstanding contestants at the competition in the auditorium on Feb. 9. The judges took careful considerations into scoring the contestants. The contestants featured a wide array of Diman students from all different shops. The contestants for a long time, working with their English teachers and related teachers, tweaked and fine-tuned their performance; all gave informative speeches. This was the first step toward moving onto the state competition. The winners of the competition will move on to the state competition.

All contestants line up for a quick photo

The winners:

- Job Skill Demestration A:
  - First Place - Hina Naveed (health careers)
  - Second Place - Alicia Medeiros (health careers)
  - Third Place - Jonathon Root (culinary arts)
- Action Skill: Michelle Moniz
- Job Skill Category B: Erica Dube

The judges:

Mr. Dennis Abdow - former student and teacher here at Diman who became Vocational Coordinator. He then retired from Diman in 2000 and began a push for the SkillsUSA organization.

Mr. Rick Snizek - editor of the Fall River Spirit which is a newspaper publication that's free in the greater Fall River Area. This was Mr. Snizeks' second year in being involved with the SkillsUSA organization.

Mr. Robert Ciosek - graduate of Diman and returned as a teacher of House and Mill Carpentry. He has succeeded in being the Carpentry Department Head and a Cluster Supervisor. He was also the vocational coordinator until he ceased to become co-op coordinator for Diman. Mr. Ciosek is proudly the Diman SkillsUSA Chapter Advisor; something he's been doing for over 20 years.

We can't forget **Jenna Mitchell**. Jenna was the official Time Keeper. She's a sophomore in culinary arts.

From a New Car to an I-POD: Overachievers getting rewarded with Attendance Incentive Program

Submitted by ***Mr. Bentley***
Principal and Assistant Superintendent-Director

Mr. Fernando Garcia, of Fall River Ford, has announced an ATTENDANCE INCENTIVE PROGRAM for all students at Diman. More information will be released in a flyer and phone call to all parents and students, but basically he is donating a car, a laptop computer and an I-Pod to students who have good attendance, no discipline referrals and pass all subjects for the period between February 1st and June 1st. He will also be rewarding parents by giving $750, $500 and $250 to the 1st, 2nd and 3rd place winners. Students who qualify will be placed in a lottery to award the prizes. This is open to all students--- Grades 9-12--- at Diman! WOW!!!

Vanancio and Marques take the Crown at Homecoming

At Homecoming the King was Ryan Vanancio and the Queen was Connie Marques.

Their "court" (2nd, 3rd, 4th place in the balloting) was:

For the King--Dustin Aguiar, Jon Pereira and James Lambert

For the Queen--Priscilla Cabral, Van Pham and Diana Rodrigues.

A 1935 Alum Talks of Diman ... during the Great Depression

*By **Angela Durfee***
Tradesman Staff

I received an email from Mr. Aubin on a graduate of Diman from a time period few of us were alive for - the Great Depression.

Mr. Raymond Clement graduated from Diman in 1935. Back then the school was totally different compared to now. I asked Mr. Clement such questions as, "What was Diman like in the 1930s?" He replied, "School in the 1930s was tough." He also told me that the teachers didn't have a lot of work to give to their students. Mr. Clement explained that if they needed wallpaper or anything they had to go to the store themselves and buy it. He said, "The city was going through the depression, and didn't have the money to buy the school supplies."

He explained how there were only 48 people in the entire school. There were only sixteen people in his class. They didn't have a shop break. There was only one teacher in the class to teach everyone. The school days would start at eight in the morning and end at two thirty in the afternoon, but that soon changed. The student only had classroom work an hour for three days a week. The classroom teacher was the principal. The principal at the time was Mr. Rendell. Later the school day changed to having classroom work from 8 a.m. to noon. Then they had shop work from 12:30 p.m. to 3:30 p.m.

There really weren't shops in the '30s. Mr. Clement said he learned how to paint. He would paint ceilings. They had a book of stencils and were allowed to make designs on their work. They were also allowed to take the stencils home and decorate their homes.

When Mr. Clement went to Diman there really wasn't a dress code. You were only required to wear a pair of overalls in shop.

The school year was the same -- it went from September to June just like now. The school was located on the southeast corner of Bank on Durfee Streets. It was right across the street from Bradford Durfee Design School.

In order to get to school you had to walk no matter how far you lived from the school. If there was bad weather you took a trolley.

Mr. Clement told me that when you graduated back then you only got your diploma -- no yearbook or anything.

In conclusion we need to realize that we get a better education than in the 1930s. We should appreciate what our teachers teach us because back in the day the teachers didn't teach much about trade or class work. Just be thankful for going to an awesome school like Diman. Mr. Clement told me that he wishes he got the education we do now and then maybe he would have stuck with painting.

Diman Donates 52 Pints of Blood

Written by ***Mr. Dugal***
Edited by ***Paul Rego***

Editor's Note: For the first time, I, Paul Rego, gave blood. It felt strange having a needle in me, but, all and all, it wasn't too bad. Once I got up, I went to the table, I felt woozy, the bell rang, and the next thing I know - a wave of people in white jackets came at me and I was on the ground. I had to stay behind and wait for my head to clear, but once that was done, I felt great because I helped someone in need. Here are some more details...

On Monday, December 5, 2005 Diman held its annual Red Cross Blood Drive. I am pleased to report that Diman donated 52 pints of blood. Once again, the Diman community has surpassed its goal of 50 pints.

Dr. Maureen Cain, my co-chair, the students of Health Careers, and the Students Advisory Council are to be commended for their services in making this year's drive a success. Mrs. Ann Marie Zenni, and the students from Office Technology are to be commended for typesetting the schedule list of donors. Mr. Joseph Sousa and the students from Graphic Arts are likewise to be commended for their assistance in printing the schedule. A special debt of gratitude is to be afforded to Mr. Edward Kerr and the Culinary Arts Department for providing coffee, pastry, and lunch to members of the Red Cross.

A grateful note of appreciation is expressed to Mrs. Melissa Baron-Cyr, Mr. Michael Valerio, Mr. Martin Bernat, Mr. Stephen Blanchette, Mr. Michael Kertyzak, Mrs. Rose Walde, Mrs. Maureen Pacheo, and Mr. Rebello for allowing students from their classes to collect names for this year's drive.

I am very appreciative to Mr. Rogerio Ramos and Mr. Brian Bentley for providing me the time with which to coordinate this year's efforts.

Shops Build a Water Wizard

*By **Paul Rego***
Editor-in-Chief

On January 6, Diman's Electronics and Machine Shop teamed up and entered a Underwater Robot Class/Competition (friendly one) at Boston University. Mr. Beaudoin (Electronics Shop), Mr. Avilla (Machine Shop), and Mr. Rapoza (Electronics Shop) were the instructors who helped the students in building the robot.

The competition had seven teams of three people. To win, the robots had to pull up one object from the bottom of the pool at Boston University. They had five minutes to complete this task. To make things worse for the teams, the Cape Cod swim team was also in the pool at the other end making the water choppy and thus making it harder for the robots to get their items. The team came in 3rd place but it was the only one of the robots that were able to pull up all of the objects that were set up. Of the seven teams, three failed to work.

To make the robots, the teams had some parts set up for them to use. Some of the parts were PBC pipe, tie raps, foam insulation, motors, wires, switches, strings, and bottles. The average sizes of the robots were around 10" by 12". Our Robots measurements were 16"-10.37"-13.5". The teams could test out their robots in a bucket that was given out. Our robot barely fit inside of the bucket.

Mr. Beaudoin plans to start up an after school project to make working robots. All students from all shops are welcome to join. He also plans to get two teams up and running to go to B.U. for the next competition. Another plan is to make a robot to be dropped into the Taunton River and have it work since the robots now are freshwater robots.

Diman Honors Contributors

Superintendent-Director Mr. Ramos and the Diman School Committee honored Joseph Martins and Carl Sawejko at the National Carrer and Technical Education Week Feb. 12-18.

Martins received the 2005 Distinguished Graduate Award while Sawejko was offered an honorary diploma.

Martins is a 1960 Diman graduate who returend to the school after college as an electronics teacher. He served as department head, evening school director, union president and principal.

Sawejko, who owns and oeprates Sawejko Communications of Fall River, has been a volunteer at the school for man years. He has ben active with the Electronics Advisory Group Improvement Council, Technoly Five-year Plan Committee, Vocational Funding Grant Board and several subcommittees.

Diman Sophomore Honored

Zachary Sinkevich received the 1st place award in the Dr Martin Luther King Jr. essay contest in an event sponsored by Bristol Community College. Zach continues a "tradition" that his brother won last year and has been won by Diman students in 3 of the last four years. Mr Ramos and Mr. Bentley along with Zach's family were present for the breakfast and award presentation. Zachary wrote an essay as part of the Martin Luther King, Jr. Essay Contest. His essay had to place either 1st, 2nd, or 3rd in this contest pitting Diman students against Durfee, Connolly, Case, Dighton-Rehoboth and Westport Zach continues a tradition of Diman students placing well in this contest. Zach's brother, Alex, came in first place last year. Zach's ELA teacher is Mrs. Polak.

A Day in the Life of a Budding Writer

*By **Daniel Medeiros***
Tradesman Staff

Mr. Wagner asked me to write a humorous article about what it's like to be a budding short story writer, my first thought was, "I'm a short story writer?" But the more I thought about it, I realized I could just be that. A day as a short story writer would be an idealistic thing to talk about, so I will try my best to describe a day in writing a solid piece of writing. When I write I first think of characters, a setting, and a basic story line. One secret of mine is that I never go into great detail, in the story line; I like to unravel the story as I go. I think about what the reader would expect or not expect. Most of my stories change as I go with them; the story line gets more serious or comical. I first jot down the basics of what I'm going to write and let my imagination take me into my own world of creation.

I know it sounds odd and it is very hard to describe, but if you've ever written something that you were proud of, you must have a general idea of what I'm talking about. I'm really not sure how to make this article amusing when just reading this must be putting you to sleep. People will say that writers aren't funny, and I don't make many jokes so I suppose they're correct.

In Mr. Wagner's English class, I have written a few short stories and am now trying my best on crafting a book. It still doesn't have a name, but the story line is coming along great. I won't go into great detail because I know it will put you to sleep, even though you already may be. My short stories differ greatly and all have their own special ending. One of them is "On the Red Baron," which is about a slave on a boat called the Red Baron. Another (without a name) is about a boy named Connor and how he became a member of the James-Younger gang.

These are only two of the few I have written. I'm still not sure if I am a true short story writer, but I will continue to write stories because I enjoy the reactions (good or bad) of the readers. Another secret I have is to always leave a good cliffhanger at the end of a story or chapter. So, I will end this article here only because I don't have much else to write. I hope you had a good dream, (if you fell asleep). If you didn't then I hope you enjoyed this. If not, well maybe you should try reading one of my stories.

If you would like to, find me if you know me, or ask someone that knows me. I'll be more than happy to let you read it.

Dan Medeiros is a junior in the Drafting shop

To the Editors:

As an alumni of Diman and a former Editor-in-Chief of The Tradesman I would like to comment on an article the newspaper ran in its first edition. The article about the Drafting shop did not, in my opinion, tell enough about what drafters do and their importance to design and engineering departments.

While knowing how to work a drafting board and t-square is a dying art, the skills taught in drafting are important. Having worked as a drafter at Lightolier in Fall River for a year and half, I'm grateful for the solid foundation in drafting that I got from the Drafting program. The skills taught in Drafting are also a good springboard for moving on to college to take up engineering. Mechanical Engineering, Manufacturing Engineering, and Design Engineering are some of the many engineering programs that a drafting graduate would likely excel in.

I know that many students don't understand what the Drafting shop does. Unlike some of Diman's other programs like Culinary Arts, Plumbing, and Carpentry, the name Drafting isn't that self-explanatory. Mr. Belliveau, the Freshman/Sophomore Instructor, tells a story to his students about a student a few years back that thought the Drafting shop had something do with the draft that the army use to conduct. Many students don't like the idea of the Drafting shop because you have to sit all day and don't get to bang on anything or light anything on fire. However, some students don't realize that drafting has an effect on their lives everyday. Every piece of machinery, every building, every electronic device you buy in the store has had its design pass through the hands of a drafter. Without drafters to make the drawings, some of the world's greatest designs would have stayed floating around in the head of some engineer.

I'll finish by commending the newspaper for the job well done. Keep up the good work and The Tradesman will continue to rise to be one of Diman's great achievements.

Regards,
Aaron Pacheco

Aaron Pacheco is a 2005 Diman alum and he was the Editor-in-Chief of The Tradesman during the 2004-05 academic year

Chris Gendreau's Movie Reviews

When a Stranger Calls

2 out of 4 Stars

Pretty much the title tells you all you need to know. A teenage girl named Jill has to baby-sit two children at a stranger's home at a remote location. The movie begins slowly since both of the kids are already asleep and she has nothing to do but either read a book or explore this huge house. Within the first half hour of the movie, Jill starts getting calls from a man who seems to be watching everything that Jill does within the house. The movie keeps you on the edge of your seat, but you start expecting a huge climax between the girl and the stalker which ends up being nothing like what you hoped for. This movie leaves you knowing just as much about the stalker as you did when it began. I'd say go see the movie but don't expect a lot of horror especially since the big surprise in this movie was given away in the T.V. trailer.

Be sure to read Kayla Cote's review of *When a Stranger Calls*.

The Chronicles of Narnia - The Lion, The Witch, and The Wardrobe

3 out of 4 Stars

If I was to describe this whole movie, I'd need a larger section in The Tradesman. Basically four children hide within a wardrobe after they break a window and enter into a magical world called Narnia. In Narnia they meet a wide array of characters from the evil witch Jadis, to the kind and heroic lion Aslan. They join forces with Aslan and a huge group of creatures to defend Narnia from Jadis and her armies of evil. Based on the first book in the Narnia series by C. S. Lewis, this movie adds some scenes that weren't in the book. The four children are perfect for their roles and the woman who plays Jadis adds certain flair to the witch that makes her a true villain. The reason I didn't give it four stars is it took a little while for all of the kids to get to Narnia and some of the creatures weren't the most realistic. I'd definitely recommend this movie for the whole family because it has something for everybody.

A Woman's Perspective to ... When a Stranger Calls

By: ***Kayla Cotee***
Tradesman Staff Writer

Have you ever been home alone? And when the phone rings you dread answering it because you're scared of what's on the other line? Well, let me tell you after watching this movie not only will you not want to be home alone, you won't want to answer the phone! This movie is a re-make of the old movie of "When A Stranger Calls" made in 1979, which had a sequel called "When A Stranger Calls Back". In all the movies including the new release all contain the line, "He's calling from inside the house!" This line gets you going! This is when the movie really gets intense and you want to know what happens and where this "stranger" is! All the movie critics are saying that this re-make is better than the original! It has more suspense! This movie will give you nightmares not only if you're a babysitter but also even to just be alone! I recommend this movie to anyone who likes these nail biting thrillers! Just remember, when you go see this make sure someone sleeps over because believe me you will need them!

Be sure to read Chris Gendreau's review of *When a Stranger Calls*.

King Rules Silver Screen

By: ***Taylor Wilkey***
Tradesman Staff Writer

Looks like another Oscar sweep for Peter Jackson he struck Oscar gold with his *Lord of The Rings Trilogy*, and I predict that he will do it again with *King Kong*.

The cinematic genius, and astounding CGI, is worth the three hour running time and the out rages box office fee. It includes actors such as Jack Black(School of Rock) as Caral Denham, Adrian Broody(The Pianist) as Jack Driscoll, and Naomi Watts as Ann Darrow.

The move is based during the Great Depression, and the beginning is the most boring part of the movie. But it quickly moves to the Lost Island. I enjoyed the slight plot changes from the original. In the original, an oil drilling company goes looking for oil on the island. But instead find a giant man-eating gorilla. The parts in the up-dated version I most enjoyed were the sacrifice scene, and the first encounter with the natives.

Even though the city scene is short, it still keeps you in your seat until the end. Even though the idea of bringing a giant ape to New York is stupid it still maces for a good ending.

When Kong escapes and Broody chases him through the streets of New York, I've never seen a cab driven faster through time square in my life. When Kong looks up into Watts' eye and you see that he truly cars for her, your heart will break. When Kong has fallen and everybody is gathered around him, they all are asking the same question, "Why did he give up." And I think Jack Black says it best, "he didn't give up, but it was beauty that killed the beast.

Kong is the proof that great movies can still be made. Even in this era of horrible movies.

Steph's Movie Corner

By: ***Stephanie Pavao***
Tradesman Managing Editor

Last Holiday

A remake of the 1950 British comedy, Last Holiday is about a woman named Georgia Byrd (Queen Latifah) who has big aspirations for herself. Georgia was (mis)diagnosed with a disease, so that lead to her living her life to the fullest. As a result of that she takes all of her savings and invests it towards a European vacation. By the end of the movie she turns into a better person. This movie also stars LL Cool J, Gerald Despardieu and Timothy Hutton. This hilarious movie is PG-13 and 111 minutes long.

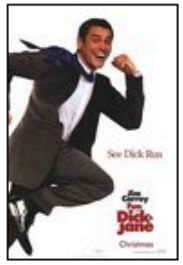

Hostel

A scary movie, Hostel is part of the new wave of scary movies when torture is more feared than death itself. This thrilling movie has everyone off their seats. Rated R this movie is 95 minutes long.

Fun with Dick and Jane

A remake of the 1977 George-Segal and Jane Fonda movie. This movie stars hilarious Jim Carey who loses his job and pension and turns into a armed robber. Rated PG-13 this movie is 90 minutes long.

McGoverns Offers A Tasty Variety

By: ***Nick Franco***
Restaurant Columnist

Ever have craving for some good fish and chips. Well I got the place just for you. I went to a restaurant called McGoverns on Shove Street in Fall River. They have a large array of seafood. I also know for a fact that the fish is fresh because I know someone who is very close to the family whom owns it and they get their fish every two or three days from the market down the street.

The environment of McGoverns depends on the time of year you go. I went in the beginning of February so the flags they have up were pink and had hearts on them. During Easter they have bunnies and birds and during St. Pattie's day ... well you get the picture. Anyhow, the environment is very pleasant and homey. It has a warm atmosphere with good smells everywhere. And the hosts or hostess was right there to seat us when we got in; there was barley a wait at all.

The food is exceptional. The fish and chips are probably some of the best I have had in town. For an appetizer I had the buffalo tenders. If you have a taste for hot and spicy things these are for you. A small order consists of four large chicken filets smothered in a thick spicy sauce accompanied with two containers of bleu cheese dressing, carrot sticks, and celery. The fish and chips were servered on a large plate with first a layer of fries, which were really good, then two medium sized filets of cod, then for a garnish they put a lemon and a little leaf.

Above all the cost of the entire meal was maybe $15-$20. So it is a nice place to eat with a nice environment and hosts and hostesses that are right there for you. The food is quick in coming and delicious.

Prom Season Blooms

By: ***Dan Cote***
Fashion Columnist

As we all know prom is approaching in just a short few months, and what better than a fashion column on just that: Prom fashion. As exciting as prom is because of all the partying, the music, and the dancing, it can also be just as hectic.

Choosing the "perfect dress" can be quite a dilemma. A lot of thought goes into choosing one: What color to select, whether it is too short or too long, too sparkly, the design, and how much skin is shown. It's hard to find the right one.

The color of the dress is critical when it comes to deciding what is right for you. The dress should not be too vibrant, for example hot pink, but at the same time should not be too dull. Black looks very formal, and can also make the beauty of a person stand out. If you choose a stylish black dress, it would match your date if he chose to wear a black tuxedo.

Most colors match black, and eliminate the pressure of having to match your date's outfit. Black tuxedos are formal, yet subtle, and often times other colors like light blue don't appear so nicely. If black isn't for you, white is another classic option. You may want to refrain from wearing a white dress if you aren't a neat person because it can become dirty easily - but otherwise look stunning if kept clean.

If you still have trouble picking a color -- gold and tan are very nice colors. They aren't vibrant, but aren't dull either. They are some of the best colors in contrast with tanned skin, and look very nice with almost anything. They stand out, and everyone wants to be noticed for prom. If you decide on a gold or tan dress, a nude shoe would match wonderfully. Pastels are very nice - for instance, light lilac or sea foam green are both great colors. Again, a nude shoe goes with everything, as well as black.

For length, and how much skin to show, the decision is completely up to you. A longer dress, tied in the back, and a slit mid way up the leg, and ruffled on the bottom would be an ideal dress for anyone.

Accessories are always important, and look very nice if you choose the right color. A silver or sparkly necklace and earrings always look good with cool skin tones, while gold looks good on warmer tones. Try not to mix too many colors; stick with silver, gold, black, or white.

In conclusion, prom is a very important day for seniors, or whoever is attending. You want to look perfect for that night, and I hope I've helped. If you follow these guidelines and stay away from sky-blue tuxedos, it will be a night to remember.

SOX Spring into '06

By: ***Josh Ferreira and Casey Gamache***
Tradesman Staff Writers

Will the 2006 Boston Red Sox be better than last year? Well to start off, the Red Sox pitching staff has changed a lot, such as with newly acquired right-handed pitchers Josh Beckett, David Riske, and Julian Tavarez. All three of these players have a career earned run average of 4.33 of less. These pitchers are all big improvement to the Red Sox rotation.

Not just the pitching rotation has changed but the lineup has too. New acquirements such as Center Fielder Coco Crisp, Third Baseman Mike Lowell, First Baseman J.T. Snow and Second Baseman Mark Loretta bring good speed and excellent hitting to the team. Coco Crisp is a good asset to the team because he replaces former Red Sox Center Fielder Johnny Damon, who signed with the New York Yankees right before Christmas. J.T. Snow will replace Kevin Millar who has signed with the Baltimore Orioles. Bill Mueller went to Los Angeles to play for the Dodgers and his replacement is Mike Lowell.

Manny Ramirez was a big topic of conversation this off-season. He hasn't been traded yet but many trade rumors have circulated around the league. Manny was said to go to the Orioles for Shortstop Miguel Tejada, but that hasn't happened yet. Or a three-team deal which would involve the Mets, Devil Rays and the Red Sox. Manny would go to the Mets, and Aubrey Huff to the Sox, but none of these trades ever happened. Manny has claimed that he wants to stay in Boston for a few more years, and we'll see if that happens.

The Red Sox have claimed that they are interested in acquiring right handed pitcher Roger Clemens, who played for the Houston Astros for the last two years after leaving the New York Yankees. Clemens, who started his career in Boston back in 1984, might have worked have his way back to the big time. Clemens has a career earned run average of 3.12 and the Red Sox need numbers like that. Roger racked up a record of 192 wins and 111 losses in his 12-year career playing for the Boston Red Sox.

Theo Epstein's new job is his old job, General Manger of the Boston Red Sox. He returned after quitting the job one month ago. He will return to continue the Red Sox' quest for their second World Series win in three years.

Josh Ferreira and Casey Gamache are the newest sports columnists for The Tradesman. They are both avid baseball fans.

Diman Sports Wrap

Diman's Varsity Ice Hockey team squad made history this year by posting a 2-1 victory over the Durfee Hilltoppers in January. The victory was Diman's first over Durfee High School. The team relied on solid defense, including Wayne Lewis' saves as goalie, and teamwork to post the victory. Freshmen twins Jonathan and Josh Brunelle exhibited this teamwork when Josh passed the puck to Jonathan for the first Diman goal. Junior Brandon Stukus scored the winning goal.

The Girls Junior Varsity squad has had a stellar year, posting a 14-5 record as of Feb. 14, 2006.
