

Welcome to the Central Dauphin School District Cyber Academy — where flexibility meets excellence.

Our Cyber Academy is led by highly qualified Central Dauphin staff who provide the same rigorous instruction taught in our physical schools, aligned with Pennsylvania state standards. Students graduate with a Central Dauphin School District diploma and have full access to all district activities and programs.

With small class sizes, personalized attention and teachers who know your name, learning can be synchronous, asynchronous, or whatever works best for your family. Our dedicated counselors, teachers, and support staff partner with families, offering office hours, guidance, and encouragement every step of the way. Plus, there are opportunities to connect in person through special events and experiences that make learning come alive.

The Central Dauphin Cyber Academy, where innovation, support, and community come together for your student's success.
