M.Ed. Curriculum, Teaching and Assessment Millersville University 2018

Reason for Serving & Educational Philosophy

As both an educator and community member, I believe deeply in the power of education to open doors for all students. With a background in business administration and finance and experience as a teacher, I bring a balanced perspective that values strong instruction, thoughtful decision-making, and responsible stewardship. With two children in the middle school, I am personally invested in supporting the success of our students, teachers, and administration. My educational philosophy centers on creating opportunities for every learner, ensuring teachers have the resources they need, and making transparent, student-focused decisions that strengthen our school community.
