

### Purposes for registration:

- To enable students to select courses that will help prepare them for the future while meeting their requirements for high school graduation.
- To determine which courses will be offered and to plan the staffing for next year. For this reason, **all course selections are final.**

### Registration Steps:

- Step 1:** Browse the course catalog tab on the website.
- Step 2:** Fill out each section of this registration worksheet. Select your required courses and write in the course name and numbers for your elective course choices
- There are some additional versions of core courses (**ML, SpEd**) described in the guide.
- Step 3:** Talk with your teachers and caregivers about your selections.
- Step 4:** Confirm that you have selected 7.5 credits. Remember, each course number = .5 credit
- Step 5:** You will use this worksheet to enter your course selections into StudentVue when the registration window opens. Remember, once course selections are entered into Synergy, they are final.
