In order to ensure the safety of our teachers and students, Keller ISD has created a hazard communication plan according to Texas Administration Code 295, which outlines and requires safety training in regards to the Texas Hazard Communication Act. In accordance to law, all administrators and science teachers are required to complete HAZCOM science safety training before the beginning of every school year.

Administrators:

(1) All campus administrators are responsible for obtaining yearly HAZCOM science safety training and ensuring that their teachers who deliver science instruction have attended training as well. Training will take place through:
   a. Online Science Safety training - Complete the course to obtain your certificate
   b. Face to face

K-4 Teachers (Texas Administrative Code §295.1 - .142):

(1) Teachers that are the teacher of record for science are required to obtain HAZCOM science training yearly. Training must occur before the teacher enters the classroom between the first Monday after school is out until the first day of school. Training must occur through one of the available means:
   - Online Science Safety training
   - Online Science Safety offering - Complete the course to obtain your certificate Face to face
      i. Enroll in course through the district professional development management system
      ii. Sign in and actively participate

5-8 Science Teachers (Texas Administrative Code §295.1 - .142):

(1) Teachers that are the teacher of record for science are required to obtain HAZCOM science training yearly. Training must occur before the teacher enters the classroom between the first Monday after school is out until the first day of school. Training must occur through one of the available means:

   - Online Science Safety training
   - Online Science Safety offering - Complete the course to obtain your certificate Face to face
      i. Enroll in course through the district professional development management system
      ii. Sign in and actively participate
      iii. Sign in and actively participate

9-12 Science Teachers (Texas Administrative Code §295.1 - .142):

(1) Teachers that are the teacher of record for science are required to obtain HAZCOM science training yearly.
