KELLER ISD	Key Strategic Priority: 2/3
ADMINISTRATIVE REGULATION	Leadership
Safety - Stranger Danger	FFF(R2)

The District takes all reports of stranger danger and suspicious behavior seriously, and our local police officers, who take the lead when such reports are made, will investigate any criminal activity.

Criminal activity may include, but is not limited to:

- Threat of violence or bodily harm
- Attempting to use physical force to restrain the student
- Enticing or luring the student to enter a vehicle or to follow him/her to another location
- Any other illegal activity with a student as determined by law enforcement officials

District administrators will consider the following when a report is made by a student, parent, adult witness, or law enforcement official: when a stranger attempts to make criminal contact with a student, and that incident occurs on Keller ISD property, on a Keller ISD bus, at a bus stop, or walking directly to and from school.

District /Campus Reporting

When a student reports a "stranger danger" incident to a campus, administrators will contact parents/guardians and law enforcement officials when necessary. Administrators will then take written statements from the involved parties, and fill out and submit a Critical Incident Report. Administrators will also make a report to the Safety and Security Department. The Safety and Security Department will immediately notify the proper district-level administrators of the incident and work with local law enforcement as needed.

Written Communication

Keller ISD will send written communication about an incident to families in the event that the incident involves criminal activity and/or is unresolved and appears to be reoccurring. In some cases, written notification may need to be sent to all campuses. Report of verbal contact alone (such as offering a student a ride) may not rise to the level of requiring parent notification. Situations or circumstances that do not fit this description will be handled on a case-by-case basis.

Student Responsibility

Keller ISD encourages any student, when approached by a stranger attempting to make criminal contact to take the following actions:

- Do not talk to the stranger, and run away. If the stranger follows you, continue running and yell "Stranger! Danger!"
- Tell a trusted adult immediately. If walking home from school, tell a parent or trusted neighbor. If walking to school, tell a teacher, principal, or assistant principal.

Parent Responsibility

Keller ISD encourages any parent whose student reports being the victim of attempted criminal contact by a stranger, to take the following actions:

- Determine the severity of the student's report and contact law enforcement officials to file a police report, if necessary.
- Allow law enforcement officials to take control of the situation when it comes to communicating the incident.

- Premature communication (including posts on social media and/or local media) of unconfirmed or unsubstantiated reports can lead to unnecessary panic for other campus parents.
