MAINTENANCE OF SCHOOL FACILITIES

According to state law, every town shall provide and maintain a sufficient number of schoolhouses, properly furnished and conveniently situated for the accommodation of all children therein entitled to attend the public schools.

The maintenance and repair program is viewed as a continuing long-term effort to maintain the appearance and functioning efficiency of the building and sites. The maintenance, repair and cleaning of school facilities (building and sites) is the direct responsibility of the Business Administrator.

A long-term (three-to-five year) program of maintenance will be the basis for developing work schedules to accommodate work projects which have to be done two or three times a year, seasonally or once a year, and once every two or more years. Money will be allocated each year in the regular budget for the support of the long-term program of repair and maintenance of school facilities.
